

Need help in a particular course? Need a refresher on subject material? Want better learning and study skills?

The STEP Project offers individual tutoring and/or Supplemental Instruction for STEP Project students. We make every effort to find a tutor in any subject requested. Tutoring is available upon request.

To request a tutor contact:
STEP Project Coordinator at 409-839-2043

or

Joseph Agbeko at 409-880-8885

Students who are interested in tutoring may sign up at any point in the semester. The STEP Project Coordinator encourages students to sign up early in the semester to avoid scheduling delays. Research shows that students who sign up for tutoring within the first four weeks of the semester are **43%** more likely to be successful (earn an **A, B, or C**) in the course for which tutoring is received.
