0 – 59	F

TECHNICAL REQUIREMENTS

The latest technical requirements, including hardware, compatible browsers, operating systems, etc. can be online at <https://lit.edu/online-learning/online-learning-minimum-computer-requirements>. A functional broadband internet connection, such as DSL, cable, or WiFi is necessary to maximize the use of online technology and resources.

DISABILITIES STATEMENT

The Americans with Disabilities Act of 1990 and Section 504 of the Rehabilitation Act of 1973 are federal anti-discrimination statutes that provide comprehensive civil rights for persons with disabilities. LIT provides reasonable accommodations as defined in the Rehabilitation Act of 1973, Section 504 and the Americans with Disabilities Act of 1990, to students with a diagnosed disability. The Special Populations Office is located in the Eagles' Nest Room 129 and helps foster a supportive and inclusive educational environment by maintaining partnerships with faculty and staff, as well as promoting awareness among all members of the Lamar Institute of Technology community. If you believe you have a disability requiring an accommodation, please contact the Special Populations Coordinator at (409)-951-5708 or email specialpopulations@lit.edu. You may also visit the online resource at [Special Populations - Lamar Institute of Technology \(lit.edu\)](#).

STUDENT CODE OF CONDUCT STATEMENT

It is the responsibility of all registered Lamar Institute of Technology students to access, read, understand and abide by all published policies, regulations, and procedures listed in the *LIT*

Catalog and Student Handbook. The *LIT Catalog and Student Handbook* may be accessed at www.lit.edu. Please note that the online version of the *LIT Catalog and Student Handbook* supersedes all other versions of the same document.

ARTIFICIAL INTELLIGENCE STATEMENT

Lamar Institute of Technology (LIT) recognizes the recent advances in Artificial Intelligence (AI), such as ChatGPT, have changed the landscape of many career disciplines and will impact many students in and out of the classroom. To prepare students for their selected careers, LIT desires to guide students in the ethical use of these technologies and incorporate AI into classroom instruction and assignments appropriately. Appropriate use of these technologies is at the discretion of the instructor. Students are reminded that all submitted work must be their own original work unless otherwise specified. Students should contact their instructor with any questions as to the acceptable use of AI/ChatGPT in their courses.

STARFISH

LIT utilizes an early alert system called Starfish. Throughout the semester, you may receive emails from Starfish regarding your course grades, attendance, or academic performance. Faculty members record student attendance, raise flags and kudos to express concern or give praise, and you can make an appointment with faculty and staff all through the Starfish home page. You can also login to Blackboard or MyLIT and click on the Starfish link to view academic alerts and detailed information. It is the responsibility of the student to pay attention to these emails and information in Starfish and consider taking the recommended actions. Starfish is used to help you be a successful student at LIT.

ADDITIONAL COURSE POLICIES/INFORMATION

PARTICIPATION

Your learning and success in this course is most tied to your own commitment to active, curious participation. That means:

- Being fully present both physically and mentally in all class activities. Adding your voice to our discussions and bringing your “yes” attitude to our physical inquiries.
- Contribute to creating a workspace of encouragement and affirmation.
- Thoughtfully engage with course media to offer your own insights back to our group through your written assignments and class discussions. Use specific elements of the assigned readings, viewings, and studio sessions, to advance our conversations in every session.

LATE WORK

Unless otherwise stated, all deadlines in this course syllabus are firm. Late work will **not** be accepted in this course, unless you have contacted me for an extension prior to the deadline.

EXTRA CREDIT

There will be no extra credit work in this course.

DISCUSSIONS

Please refer to the student code of conduct.

We acknowledge that racism and sexism have resulted in unequal opportunities for people to succeed in the sciences by creating barriers for people who are underrepresented in science. Racism, sexism, and other forms of discrimination still exist in the sciences today and the scientific community needs to remain vigilant about addressing these problems. The diversity that students bring to this class is viewed as a resource, a strength, and a benefit. Science is stronger when there are diverse ideas and thoughts, and we will strive to create an environment in which students from all backgrounds and with different perspectives feel included, valued, and respected. We strive to create a learning environment for students that supports a diversity of thoughts, perspectives, and experiences. To help accomplish this goal, please let a professor know if anything occurs or is said in the classroom by an instructor or student that is troubling or is offensive.

- Be courteous in your interactions with others.
- Refrain from personally critical commentary.
- Give others a chance to voice their thoughts.
- Do not make judgments based on stereotypes.

ACADEMIC DISHONESTY & USE OF AI

Intellectual honesty is vital to an academic community and for my fair evaluation of your work. All work submitted in this course must be your own. You may **not** make use of ChatGPT or other AI software. Academic dishonesty, including the use of AI. Will earn an automatic zero on the assignment or exam. I do utilize an AI checker on all written assignments.
