COURSE EVALUATION

Final grades will be calculated according to the following criteria:

Personal growth and development in software usage and familiarity of computer related terminology as well as design will be used to gauge the student's effort into the subject materials. Their level of growth will be a significant variable to the evaluation of the student and their grade. It is expected that each student participates effectively and often during critiques and discussions. A well thought out idea shall be researched and understood by the student so that they will defend their choices in their works during critique while accepting constructive criticism from their peers.

Test Grades = 60%

- This includes ... Projects, tests and any lengthy assignment specified as a test grade

Daily Grades = 40%

- This includes Daily Warm-ups, vocabulary, quizzes, participation in critiques and any daily assignment NOT specified as a test grade

GRADE SCALE

- A (90-100) Student participates in all classroom discussions and critiques. Student completes all assignments and projects within deadline. Their work exemplifies a very high level of dedication and understanding of their craft. No conflicts with instructor or peers.
- B (80-89) Student participates in classroom discussions and critiques. Student completes all assignments and projects within deadline. Their work exemplifies a high level of dedication and understanding of their craft. No conflicts with instructor or peers.
- C (70-79) Student participates in some classroom discussion and critiques. Student completes most assignments and projects within deadline. Their work exemplifies a low standard of dedication and understanding of their craft. Conflicts with instructor or peers arise.
- D (60-69) Student participates very little in classroom discussion and critiques. Student does not complete all assignments and projects within deadline. Their work exemplifies a low level of dedication and understanding of their craft. Conflicts with instructor or peers constantly arise.

- F (0-59) Student shows little effort to complete work or participate in classroom.

FINAL GRADE REQUIREMENTS

To receive course credit for a General Education course you need a letter grade of “D” or better. To receive course credit for a Program Specific course you need a letter grade of “C” or better. To understand if a course is a General Education requirement of a Program requirement for your degree, please check DegreeWorks on my.lit.edu

INCOMPLETE GRADE

There is an application to request for an “Incomplete” for a grade. Be aware this is an application, whether you receive an “Incomplete” as a grade is up to your Instructor’s discretion and usually only awarded in dire and extenuating circumstances where the student is truly unable to finish the course.

TECHNICAL REQUIREMENTS

The latest technical requirements, including hardware, compatible browsers, operating systems, etc. can be online at <https://lit.edu/online-learning/online-learning-minimum-computer-requirements>. A functional broadband internet connection, such as DSL, cable, or WiFi is necessary to maximize the use of online technology and resources.

AI Statement

Lamar Institute of Technology (LIT) recognizes the recent advances in Artificial Intelligence (AI), such as ChatGPT, have changed the landscape of many career disciplines and will impact many students in and out of the classroom. To prepare students for their selected careers, LIT desires to guide students in the ethical use of these technologies and incorporate AI into classroom instruction and assignments appropriately. Appropriate use of these technologies is at the discretion of the instructor. Students are reminded that all submitted work must be their own original work unless otherwise specified. Students should contact their instructor with any questions as to the acceptable use of AI / ChatGPT in their courses.

My Policies on AI

- **Permitted AI Usage**
- Idea Generation
- You may use AI to brainstorm ideas, generate mood boards, or explore visual concepts as a starting point for your work.
- Technical Assistance
- AI may be used for tasks like resizing, color correction, or automating repetitive tasks within design software.
- Inspiration and Reference
- You can consult AI-generated content for inspiration or references, but the final design should be significantly altered to reflect your own creativity.
- **Transparency and Disclosure**
- Citing AI Tools

- Clearly indicate which AI tools were used and for what purpose.
- Process Documentation
- In your project documentation, explain how AI contributed to your design and what manual changes or creative decisions you made.
- Ethical Considerations**
- Overreliance
- Excessive dependence on AI to generate designs, without meaningful human input or creative direction, is not permitted. The goal is to develop your design skills, not to replace them.
- Bias and Fairness
- AI can perpetrate bias and stereotypes depending on the data it is fed. Strive for diversity and inclusivity.
- Copyright
- Passing off an image made wholly by AI as completely your own is unethical. AI is a tool meant to support, not replace.

DISABILITIES STATEMENT

The Americans with Disabilities Act of 1990 and Section 504 of the Rehabilitation Act of 1973 are federal anti-discrimination statutes that provide comprehensive civil rights for persons with disabilities. LIT provides reasonable accommodations as defined in the Rehabilitation Act of 1973, Section 504 and the Americans with Disabilities Act of 1990, to students with a diagnosed disability. The Special Populations Office is located in the Eagles' Nest Room 129 and helps foster a supportive and inclusive educational environment by maintaining partnerships with faculty and staff, as well as promoting awareness among all members of the Lamar Institute of Technology community. If you believe you have a disability requiring an accommodation, please contact the Special Populations Coordinator at (409)-951-5708 or email specialpopulations@lit.edu. You may also visit the online resource at [Special Populations - Lamar Institute of Technology \(lit.edu\)](#).

STUDENT CODE OF CONDUCT STATEMENT

It is the responsibility of all registered Lamar Institute of Technology students to access, read, understand and abide by all published policies, regulations, and procedures listed in the *LIT Catalog and Student Handbook*. The *LIT Catalog and Student Handbook* may be accessed at www.lit.edu. Please note that the online version of the *LIT Catalog and Student Handbook* supersedes all other versions of the same document.

STARFISH

LIT utilizes an early alert system called Starfish. Throughout the semester, you may receive emails from Starfish regarding your course grades, attendance, or academic performance. Faculty members record student attendance, raise flags and kudos to express concern or give praise, and you can make an appointment with faculty and staff all through the Starfish home page. You can also login to Blackboard or MyLIT and click on the Starfish link to view academic

alerts and detailed information. It is the responsibility of the student to pay attention to these emails and information in Starfish and consider taking the recommended actions. Starfish is used to help you be a successful student at LIT.
