## **ATTENDANCE POLICY**

While this class is online, it is delivered on the campus of King Collegiate Academy. Lecture videos are provided and shown in class, and class discussion is handled by an in-class facilitator whom the instructor works with very closely and frequently meets, and whom students are expected to treat with the utmost respect.

Regular attendance and meaningful engagement are necessary for successful completion of this course. Students are expected to attend all scheduled class meetings, arrive on time, and remain for the duration of each class period. Repeated tardiness, early departures, frequent disrespect of your in-class teacher and fellow classmates, or failure to remain meaningfully engaged may negatively affect daily work, assignment completion, and overall course performance.

Attendance requires both physical presence and meaningful engagement. Students who are present but not meaningfully engaged, including sleeping, persistent non-course-related use of electronic devices, or disruptive behavior, may be removed from their classroom at the discretion of King Collegiate Academy.

Students are responsible for any missed work or lecture content.

Absences or missed deadlines due to documented medical or personal emergencies will be excused and students will be offered the opportunity to make up missing work. Absences for religious observances will be respected in accordance with college policy. Students are responsible for notifying the instructor in advance whenever possible and for submitting required documentation within a reasonable timeframe.

The instructor reserves the right to evaluate attendance-related concerns on a case-by-case basis in accordance with institutional policy.

## **DROP POLICY**

If you wish to drop a course, you are responsible for initiating and completing the drop process by the specified date as listed in the College Calendar on the [Student Success](#) web page. If you stop coming to class and fail to drop the course, you will earn an “F” in the course.

### TECHNICAL REQUIREMENTS

For the latest technical requirements, including hardware, compatible browsers, operating systems, etc., review the Minimum Computer and Equipment Requirements on the [LIT Online Experience](#) page. A functional broadband internet connection, such as DSL, cable, or WiFi is necessary to maximize the use of online technology and resources.

## **DISABILITIES STATEMENT**

The Americans with Disabilities Act of 1990 and Section 504 of the Rehabilitation Act of 1973 are federal anti-discrimination statutes that provide comprehensive civil rights for persons with disabilities. LIT provides reasonable accommodations as defined in the Rehabilitation Act of 1973, Section 504 and the Americans with Disabilities Act of 1990, to students with a diagnosed disability. The Special Populations Office is located in the Eagles' Nest Room 129 and helps foster a supportive and inclusive educational environment by maintaining partnerships with faculty and staff, as well as promoting awareness among all members of the Lamar Institute of Technology community. If you believe you have a disability requiring an accommodation, please contact the Special Populations Coordinator at (409)-951-5708 or email [specialpopulations@lit.edu](mailto:specialpopulations@lit.edu). You may also visit the online resource at [Special Populations - Lamar Institute of Technology \(lit.edu\)](#)

## **STUDENT CODE OF CONDUCT STATEMENT**

It is the responsibility of all registered Lamar Institute of Technology students to access, read, understand and abide by all published policies, regulations, and procedures listed in the *LIT Catalog and Student Handbook*. The *LIT Catalog and Student Handbook* may be accessed at [www.lit.edu](http://www.lit.edu). Please note that the online version of the *LIT Catalog and Student Handbook* supersedes all other versions of the same document.

## **ARTIFICIAL INTELLIGENCE STATEMENT**

Lamar Institute of Technology (LIT) recognizes the recent advances in Artificial Intelligence (AI), such as ChatGPT, have changed the landscape of many career disciplines and will impact many students in and out of the classroom. To prepare students for their selected careers, LIT desires to guide students in the ethical use of these technologies and incorporate AI into classroom instruction and assignments appropriately. Appropriate use of these technologies is at the discretion of the instructor. Students are reminded that all submitted work must be their own original work unless otherwise specified. Students should contact their instructor with any questions as to the acceptable use of AI/ChatGPT in their courses.

## **STARFISH**

LIT utilizes an early alert system called Starfish. Throughout the semester, you may receive emails from Starfish regarding your course grades, attendance, or academic performance. Faculty members record student attendance, raise flags and kudos to express concern or give praise, and you can make an appointment with faculty and staff all through the Starfish home page. You can also login to Blackboard or MyLIT and click on the Starfish link to view academic alerts and detailed information. It is the responsibility of the student to pay attention to these emails and information in Starfish and consider taking the recommended actions. Starfish is used to help you be a successful student at LIT.

## **CONTACT PROCEDURES**

The best way to contact your professor is either through Blackboard Messages, or by LIT email. Blackboard Messages are direct and have the added benefit of keeping your information and questions within the class itself, so this is recommended.

If you choose to email, when emailing your professor, include your name, course section number, and a detailed message so that questions and concerns may be addressed properly. Be specific and detailed and make no assumptions. Please be respectful and informative in all correspondence. The more information you provide, the more quickly your issues can be resolved. Please allow up to 24 hours for a response or 48 hours on a weekend. If you do not receive a response in time, please contact me again.

At times, when a deadline is of the essence or an emergency message needs to be communicated, I may choose to contact you via Google Text. This is done to ensure you receive the message quickly. My Google Text number is (346) 291-7537. Only contact me this way if it's a response to a message, or if you have an emergency and need to speak to me immediately. Otherwise, stick with Blackboard Messages and LIT email for most all class related business.

### **ACADEMIC DISHONESTY**

Students found to be committing academic dishonesty (cheating, plagiarism, AI, or collusion) may receive disciplinary action. Students need to familiarize themselves with the institution's Academic Dishonesty Policy available in the Student Catalog & Handbook at <http://catalog.lit.edu/content.php?catoid=3&navoid=80#academic-dishonesty>.

Plagiarism includes both a failure to cite sources/quotations and passing another's words off as your own. Using AI to wholly or near wholly write assignments in this course is unacceptable and may result in a zero for an assignment. Assignments in this class are about you and are graded on the strength of your own ideas and response, so the work must be original and unique.

If AI abuse is suspected on an assignment, this will be investigated thoroughly. Students will be required to submit a link to their original files with full editor access for analysis. The student will also be contacted for a face-to-face or virtual (camera on, hands visible) meeting to discuss the assignment and the student's methodology. If a student does not grant file access or does not attend the required meeting, a zero may be automatically rendered on the assignment.

If a student commits academic dishonesty, namely plagiarism or AI abuse, then restrictions and special conditions may be placed on a student's later assignments. These conditions may include further documentation at the time of submission, hand-written and proctored assignments, oral defenses, collaborative writing sessions with the professor, restrictions on topics and subject matter, etc. Students are expected to meet these conditions or they may receive a zero automatically on the assignment in question.

**GRADING**

For all assignments, rubrics are provided as well as “How To” videos to demonstrate examples of how best to succeed. The most important thing to me is your ideas and response. If your work is honest, you can and should succeed, and I will work with you to ensure that happens.

I encourage all students to show me their work early before the deadline to look it over for pre-grading. This is to help the student earn the best grade possible, strengthen their voice, and ensure success. Due to the volume of students, I may only have time to review your work once before the deadline. Be respectful of your professor’s time and the needs of other students.

Unless otherwise specified, each assignment must be uploaded to the appropriate Blackboard link by 11:59 pm on the due date. Assignments turned in after the due date will be considered late.

Please allow up to one to two weeks after the deadline for assignments to be graded. If an assignment is accepted late or a redo is allowed, this will be graded at the professor’s nearest convenience after all outstanding grades are completed.

**LATE WORK AND GRADE REDO POLICY**

Automatic zeroes are rendered for missed assignments. If you miss a deadline, contact me immediately and I will work with you to turn the grade around. Preferably, contact me and send your work in the same message. If a deadline is missed, the student will have one week to submit the assignment which will be accepted with a small point penalty. Late work submitted after this window will only be accepted at the instructor’s discretion and may receive a larger point penalty.

If a student fails or misses a major assignment with the exception of the final project, the student will have one week to contact the professor and request a redo. This redo will incur a small point penalty and will only be accepted at the instructor’s discretion. Repeated offenses such as frequent late work or multiple cases of academic dishonesty may render this privilege null and void.

When calculating final grades, if a point penalty keeps a student from achieving a higher letter grade, all or some of the penalty may be rescinded to round up the student’s grade.
