LECTURE SCHEDULE

DATE: AUGUST		CHAPTER	ASSIGNMENTS & TESTS DUE
WEEK 1	On campus	Intro to Preventive/Chapter 1	Read Chapter 1 <b>Assignment:</b> Submit Course contract in Blackboard
	Online	Chapter 3	Read Chapter 3 <b>Assignment:</b> Take Chapter 3 quiz <b>Review:</b> See Course syllabus for instructions on Behavior Modification Project
WEEK 2	On campus	Chapter 17	Read Chapter 17 Pages 279-293 <b>Assignment:</b> Start of Behavior Modification Project Journal Entry Due in Blackboard
<b>SEPTEMBER</b>			
WEEK 2	Online	Chapter 24	Read Chapter 24 <b>Assignment:</b> Take Chapter 24 quiz
WEEK 3	On Campus	Flip Book Introduction	<b>Assignment:</b> Behavior Modification Project End of Week #1 Journal Entry Due in Blackboard
	Online	Chapter 18	Read Chapter 18 <b>Assignment:</b> Take Chapter 18 quiz
WEEK 4	<b>On campus</b>	<b>Guest Speaker GSK</b>	<b>Assignment:</b> Plaque Flipbook Page Due in class <b>Assignment:</b> Behavior Modification Project End of Week #2 Journal Entry Due in Blackboard
	Online	<b>Test 1</b>	Chapters 1, 3, 17, 18, 24
WEEK 5	On campus	Chapter 19	Read Chapter 19 <b>Assignment:</b> Behavior Modification Reflection paper due
	Online	Chapter 22	<b>Assignment:</b> Take Chapter 22 quiz
WEEK 6	On campus	Chapter 25	Read Chapter 25 <b>Assignment:</b> Periodontal Disease Flipbook Page Due in class
	Online	Chapter 26	Read Chapter 26 <b>Assignment:</b> Take Chapter 26 quiz
<b>OCTOBER</b>			
WEEK 7	On campus	Chapter 27/29	Read Chapter 27 & 29 (pages 488-490) Bring Typodont to class <b>Assignment:</b> Caries Flipbook Page Due in class
	Online	<b>Test 2</b>	Chapters 19, 22, 25, 26, 27, 29

Preventive Dental Hygiene Care  
 DHYG 1227

WEEK 8	On campus	Chapter 28	Read Chapter 28 Bring Typodont to class <b>Assignment:</b> Toothbrushing Flipbook Page Due in class
	Online	Chapter 34	Read Chapter 34 <b>Assignment:</b> Take Chapter 34 quiz in Blackboard
WEEK 9	On campus	Crest/Oral B presentation	Read Chapter 44 Bring Typodont to class <b>Assignment:</b> Flossing & Flossing Aids Flipbook Pages Due in class
	Online	Chapters 44 & 45	Read Chapter 45 <b>Assignment:</b> Take Chapter 45 quiz in Blackboard
WEEK 10	On campus	Chapter 23	Read Chapter 23 <b>Assignment:</b> Fluoride Flipbook Pages Due in class
	Online	<b>Test 3</b>	<b>Chapters 28, 34, 44, 45</b>
<b>NOVEMBER</b>			
WEEK 11	On campus	Patient Ed #1	Plaque and Brushing
	Online	<b>Patient Ed/Demo</b>	<b>Pt Ed Videos/Plaque &amp; Brushing due by 11/8</b>
WEEK 12	On campus	Patient Ed #2	Gingivitis and Flossing <b>Assignment:</b> Tobacco Cessation Flipbook Page Due in class
	Online	<b>Patient Ed/Demo</b>	<b>Pt Ed Videos/Gingivitis &amp; Flossing due by 11/15</b>
WEEK 13	<b>On campus</b>	Patient Ed #3	Caries <b>Final Flipbook Due</b>
	Online	<b>Patient Ed/Demo</b>	<b>Pt Ed Video/Caries Due by 11/22</b>
WEEK 14	<b>On campus</b>	<b>Care Plan</b>	
	<b>Holiday</b>	<b>THANKSGIVING HOLIDAY</b>	
WEEK 15	<b>On campus</b>	<b>Care Plan</b>	
<b>DECEMBER</b>			
WEEK 15	Online	Care Plan	<b>Care Plan Final Submission Due</b>
<b>WEEK OF DEC 6 – COMPREHENSIVE FINAL EXAM - TBA</b>			

\* Schedule may be adjusted as deemed necessary.

## COURSE INFORMATION

### COURSE DESCRIPTION

The role of the dental hygienist as a therapeutic oral health care provider with emphasis on concepts to disease management, health promotion, communication, and behavior modification.

### COURSE GOALS

Upon the completion of this course, the student will be able to:

1. Describe the role of the dental hygienist as a therapeutic oral health care provider.
2. Develop and implement a patient education plan for periodontal disease.
3. Explain the concepts of disease management.

PRE-REQUISITES: DHYG 1301

CO-REQUISITES: DHYG 1431, DHYG 1304

### CREDIT HOURS

Course credit: 2 semester hours

Class hours: 2 hours

### CLASS MEETING TIME (HYBRID)

Tuesdays: 11:00 am – 11:50 am Room MPC 112

Thursdays: Hybrid/Distance learning format

### INSTRUCTOR

Lisa Harrell, RDH, BS

Office 206 MultiPurpose Building

(409) 839-2906

[lrharrell@lit.edu](mailto:lrharrell@lit.edu)

Students should discuss questions by appointment or as the instructor is available.

### **REQUIRED TEXT**

Boyd, Mallonee, & Wyche, Wilkins' Clinical Practice of the Dental Hygienist, 13<sup>th</sup> edition, Jones & Bartlett Learning, 2021. ISBN: 9781496396273

### **REFERENCES**

### **TEACHING METHODS**

Lecture by instructor/guest speaker

Demonstration by instructor

Class discussion

Videos

## **PROGRAM POLICIES**

### **ATTENDANCE POLICY**

In order to ensure the students in the dental hygiene program achieve the necessary didactic and clinical competencies outlined in the curriculum, it is necessary that the student complete all assigned lecture classes, clinical and laboratory hours. It is the responsibility of the student to attend class, clinic or lab. The instructor expects each student to be present at each session.

It is expected that students will appear to take their exams at the regularly scheduled examination time. Make-up examinations will be given **only** if the absence is due to illness (confirmed by a physicians' excuse), a death in the immediate family, or at the discretion of the instructor.

If students are unable to attend lecture class, clinic or lab, it is **mandatory that you call the appropriate instructor prior to the scheduled class, clinic or lab time. An absence will be considered unexcused if the student fails to notify the course faculty prior to the start of class, clinic, or lab.** The student is responsible for all material missed at the time of absence. Extenuating circumstances will be taken into account to determine if the absence is excused. Extenuating circumstances might include but are not limited to: funeral of immediate family member, maternity, hospitalizations, etc. If the student has surgery, a debilitating injury, or an extended illness, a doctor's release will be required before returning to clinic.

a. Fall/Spring Semesters:

Dental hygiene students will be allowed **two excused absences** in any lecture, clinic or lab. Absences must be accompanied by a written excuse on the next class day. In the event that a student misses class, clinic or lab beyond the allowed absences, the following policy will be enforced:

2 absences = notification in Starfish

Beginning with the third absence, **2 points** will be deducted from the final course grade for each absence thereafter.

Two (2) points will be deducted from the final course grade for each unexcused absence.

### **TARDINESS**

Tardiness is disruptive to the instructor and the students in the classroom. A student is considered tardy if not present at the start of class, clinic or lab. It is expected that students will arrive on time for class, clinic or lab, and remain until dismissed by the instructor. If tardiness becomes an issue, the following policy will be enforced:

Tardy 1 time = notification in Starfish

Tardy 2 times = is considered an unexcused absence. (See definition of unexcused absence)

If a student is more than 15 minutes late to any class period, it will be considered an unexcused absence.

**Students should plan on attending class, labs and clinic sessions as assigned throughout the semester. Family outings, vacations and personal business should be scheduled when school is not in session and will not be considered excuses for missing assignments, examinations, classes, labs or clinic time.**

### **EXAMINATION AND QUIZ POLICY**

Examinations will be based on objectives, lecture notes, handouts, assigned readings, audiovisual material and class discussions. Major examinations will consist of multiple choice, true/false, matching, short answer, and case study questions. No questions will be allowed during exams.

Students are expected to complete examinations as scheduled. Make-up examinations will be given **ONLY** if the absence is due to illness (confirmed by a physicians' excuse), a death in the immediate family, or at the discretion of the instructor. All make-up examinations must be taken within two (2) weeks from the scheduled exam date. All written examinations will be kept on file by the instructor. Students may have access to the written examinations by appointment during the instructor's office hours. Exams may be reviewed up to two (2) weeks following the exam date.

All written examinations will require a scantron during the test unless otherwise stated. All online examinations will use Respondus Lockdown Browser and Respondus Monitor, therefore, a webcam is required to take the test.

### **ACADEMIC INTEGRITY**

It shall be considered a breach of academic integrity (cheating) to use or possess on your body any of the following devices during any examination unless it is required for that examination and approved by the instructor: cell phone, smart watch/watch phone, laptop, tablet, electronic communication devices (including optical), and earphones connected to or used as electronic communication devices. It may also include the following: plagiarism, falsification and fabrication, abuse of academic materials, complicity in academic dishonesty, and personal misrepresentation.

Use of such devices during an examination will be considered academic dishonesty. The examination will be considered over, and the student will receive a zero (0) for the exam.

Students with special needs and/or medical emergencies or situations should communicate with their instructor regarding individual exceptions/provisions. It is the student's responsibility to communicate such needs to the instructor.

### **DISABILITIES STATEMENT**

The American with Disabilities Act of 1992 and Section 504 of the Rehabilitation Act of 1973 are federal anti-discrimination statutes that provide comprehensive civil rights for persons with disabilities. Among other things, these statutes require that all students with documented disabilities be guaranteed a learning environment that provides for reasonable accommodations for their disabilities.

If you believe you a disability requiring an accommodation, please contact the Special Populations Coordinator at (409) 880-1737 or visit the online resource at:

<http://www.lit.edu/depts/stuserv/special/defaults.aspx>

### **STUDENT CODE OF CONDUCT**

It is the responsibility of all registered Lamar Institute of Technology students to access, read, understand and abide by all published policies, regulations, and procedures listed in the *LIT Catalog* and *Student Handbook*. The *LIT Catalog* and *Student Handbook* may be accessed at [www.lit.edu](http://www.lit.edu) or obtained in print upon request at the Office of Student Success. Please note that the online version of the *LIT Catalog* and *Student Handbook* supersedes all other versions of the same document.

### **TECHNICAL REQUIREMENTS (for BLACKBOARD)**

The latest technical requirements, including hardware, compatible browsers, operating systems, software, Java, etc. can be found online at: [https://help.blackboard.com/en-us/Learn/9.1\\_2014\\_04/Student/015\\_Browser\\_Support/015\\_Browser\\_Support\\_Policy](https://help.blackboard.com/en-us/Learn/9.1_2014_04/Student/015_Browser_Support/015_Browser_Support_Policy) . A functional broadband internet connection, such as DSL, cable, or WiFi is necessary to maximize the use of the online technology and resources.

### **STARFISH**

LIT utilizes an early alert system called Starfish. Throughout the semester, you may receive emails from Starfish regarding your course grades, attendance, or academic performance. Faculty members record student attendance, raise flags and kudos to express concern or give praise, and you can make an appointment with faculty and staff all through the Starfish home page. You can also login to Blackboard or MyLIT and click on the Starfish link to view academic alerts and detailed information. It is the responsibility of the student to pay attention to these emails and information in Starfish and consider taking the recommended actions. Starfish is used to help you be a successful student at LIT. You may also access Starfish through:

<https://lit.edu/student-success/starfish>

### **ELECTRONIC DEVICES**

Electronic devices are a part of many individuals lives today. Devices such as tape recorders, radios, cell phones, paging devices, smart watches, laptop computers, however, may be disturbing to faculty and classmates. Students, therefore, must receive the instructor's permission to operate all electronic devices in the classroom and clinic. Texting on cell phones, computers, or smart watches will not be allowed during class or clinic. Smart phones and smart watches will also be required to be placed on the desk in front of the classroom while a test is being given.

### COURSE REQUIREMENTS

The student must pass the course with a 75% or more in order to receive credit for DHYG 1227. All course work must be successfully completed by the last class day. Failure to complete course work will result in the grade of "F" being awarded for DHYG 1227 and dismissal from the dental hygiene program. Exclusions from this policy will be dealt with on an individual basis by the instructor.

Requirements for this course include:

- 3 tests
- Quizzes
- Final Exam
- Behavior Modification project
- Patient Care Plan
- Patient Education Flip Book
- Patient Education Videos

### EVALUATION CRITERIA

Grade Distribution

Tests	45%
Final Exam	15%
Care Plan	15%
Patient Education Flip Book	10%
Patient Education Sessions	10%
Quizzes/Behavior Modification Project	5%

### GRADING SCALE

92 – 100	A
83 – 91	B
75 – 82	C
60 – 74	D
59 and below	F

## **CONTENT OUTLINE**

- I. The Professional Dental Hygienist/Chapter 1
  - A. History of the Dental Hygiene Profession
  - B. Objectives for Professional Practice
  - C. Dental Hygiene Process of Care
  - D. Professionalism
  
- II. Effective Health Communication/Chapter 3
  - A. Types of Communication
  - B. Health Communication
  - C. Health Literacy
  - D. Communication across the Life Span
  - E. Social and Economic Aspects of Health Communication
  - F. Cultural Considerations
  
- III. Dental Soft Deposits, Biofilm Calculus, and Stains/Chapter 17
  - A. Dental Biofilm and Other Soft Deposits
  - B. Acquired Pellicle
  - C. Dental Biofilm
  - D. Supragingival and Subgingival Dental Biofilm
  - E. Composition of Dental Biofilm
  - F. Clinical Aspects of Dental Biofilm
  - G. Significance of Dental Biofilm
  - H. Materia Alba
  - I. Food Debris
  - J. Calculus
  - K. Calculus Composition
  - L. Calculus Formation
  - M. Attachment of Calculus
  - N. Significance of Dental Calculus
  - O. Clinical Characteristics
  - P. Prevention of Calculus
  
- IV. The Periodontium/Chapter 18
  - A. The Normal Periodontium
  - B. The Gingival Description
  - C. The Gingiva of Young Children
  
- V. Periodontal Disease Development/Chapter 19
  - A. Periodontal-Systemic Disease Connection
  - B. Risk Assessment
  - C. Etiology of Periodontal Disease
  - D. Risk Factors for Periodontal Diseases
  - E. Pathogenesis of Periodontal Diseases
  - F. Gingival and Periodontal Pockets

Preventive Dental Hygiene Care  
DHYG 1227

- G. Complications Resulting from Periodontal Disease Progression
  - H. The Recognition of Gingival and Periodontal Infections
  - I. Classification of Periodontal Health
  - J. Classification of Gingivitis and Periodontitis
- VI. Dental Hygiene Diagnosis/Chapter 22
- A. Assessment Findings
  - B. The Periodontal Diagnosis and Risk Level
  - C. Dental Caries Risk Level
  - D. The Dental Hygiene Diagnosis and Prognosis
- VII. The Dental Hygiene Care Plan/Chapter 23
- A. Preparation of a Dental Hygiene Care Plan
  - B. Components of a Written Care Plan
  - C. Sequencing and Prioritizing Patient Care
  - D. Presenting the Dental Hygiene Care Plan
  - E. Informed Consent
- VIII. Preventive Counseling and Behavior Change/Chapter 24
- A. Steps in a Preventive Program
  - B. Patient Counseling
  - C. Patient Motivation and Behavior Change
  - D. Motivational Interviewing
  - E. Exploring Ambivalence
  - F. Eliciting and Recognizing Change Talk
- IX. Protocols for Prevention and Control of Dental Caries/Chapter 25
- A. History of Dental Caries Management
  - B. The Dental Caries Process
  - C. Dental Caries Classification
  - D. Caries Risk Assessment
  - E. Implementation of CRA in the Process of Care
- X. Oral Infection Control: Toothbrushes and Toothbrushing/Chapter 26
- A. Development of Toothbrushes
  - B. Manual Toothbrushes
  - C. Power Toothbrushes
  - D. Toothbrush Selection
  - E. Methods for Manual Toothbrushing
  - F. Adverse Effects of Toothbrushing
- XI. Oral Infection Control: Interdental Care/Chapter 27
- A. The Interdental Area
  - B. Planning Interdental Care
  - C. Selective Interdental Biofilm Removal
  - D. Methods for Interdental Aids
- XII. Dentrifrices and Mouthrinses/Chapter 28
- A. Chemotherapeutics

Preventive Dental Hygiene Care  
DHYG 1227

- B. Dentifrices
  - C. Preventive and Therapeutic Benefits of Dentifrices
  - D. Basic & Active Components of Dentifrices
  - E. Selection of Dentifrices
  - F. Mouthrinses
  - G. Purposes and Uses of Mouthrinses
  - H. American Dental Association Seal of Acceptance Program
- XIII. The Patient with Orthodontic Appliances/Chapter 29
- A. Dental Hygiene Care
- XIV. Fluorides/Chapter 34
- A. Fluoride Metabolism
  - B. Fluoride and Tooth Development
  - C. Demineralization vs. Remineralization
  - D. Effects and Benefits of Fluoridation
- XV. Principles of Evaluation/Chapter 44
- A. Evaluation based on Goals and Outcomes
  - B. Evaluation of Clinical Outcomes
  - C. Evaluation of Behavior Changes
  - D. Comparison of Assessment Findings
- XVI. Continuing Care/Chapter 45
- A. Goals of the Continuing Care Program
  - B. Continuing Care Procedures
  - C. Appointment Intervals
  - D. Methods for Continuing Care Systems

## **LEARNER OBJECTIVES**

### **Chapter 1 The Professional Dental Hygienist**

1. Identify and define key terms and concepts related to the professional dental hygienist.
2. Describe the scope of dental hygiene practice.
3. Identify and describe the components of the dental hygiene process of care.
4. Identify and apply components of the dental hygiene code of ethics.
5. Explain legal, ethical, and personal factors affecting dental hygiene practice.
6. Apply concepts in ethical decision making.

### **Chapter 3 Effective Health Communication**

1. Discuss the skills and attributes of effective health communication.
2. Identify factors that influence health communication.
3. Explain how the patient's age, culture, and health literacy level affect health communication strategies.
4. Identify communication theories relevant to effective health communication and motivational interviewing.
5. Health communication is the use of communication strategies to enhance the ability to provide patient-centered health information, motivate positive changes in health behaviors, and achieve improved health outcomes.
6. In the context of dental hygiene care, good communication skills help patients embrace healthy behaviors of all types that allow them to attain and maintain oral health.

### **Chapter 17 Dental Soft Deposits, Biofilm, Calculus, and Stains**

1. Define acquired pellicle and discuss the significance and role of the pellicle in the maintenance of oral health.
2. Discuss the different stages in biofilm formation and identify the changes in biofilm microorganisms as biofilm matures.
3. Differentiate between the types of soft and hard deposits.
4. Recognize the factors that influence the accumulation of biofilm and calculus.
5. Identify the modes of attachment of supra- and subgingival calculus to dental structure.
6. Describe the clinical and radiographic characteristics of supra- and subgingival calculus and its detection.
7. Educate patients regarding the etiology and prevention of dental biofilm and calculus.

### **Chapter 18 The Periodontium**

1. Recognize normal tissues of the periodontium.
2. Know clinical features of the periodontium.
3. Describe the characteristics of healthy gingiva.
4. Compare and contrast the characteristics of gingiva in health and disease.

**Chapter 19 Periodontal Disease Development**

1. List and describe the modifiable and nonmodifiable risk factors for periodontal disease.
2. Explain the signs and symptoms of periodontal disease.
3. Define the stages of development for periodontal lesions.
4. Compare and contrast the staging and grading of periodontal disease.
5. Describe the dental hygienist's role in educating the patient about management of modifiable risk factors for periodontal disease.

**Chapter 22 Dental Hygiene Diagnosis**

1. Explain the significance of developing a dental hygiene diagnosis as a component of the dental hygiene process of care.
2. Formulate a dental hygiene diagnosis based on the assessment findings.
3. Identify and define key terms and concepts related to planning dental hygiene care.
4. Identify and explain assessment findings and individual patient factors that affect patient care.
5. Identify additional factors that can influence planning for dental hygiene care.

**Chapter 23 The Dental Hygiene Care Plan**

1. Discuss rationale and objectives for developing a dental hygiene care plan.
2. Identify the components of a dental hygiene care plan.
3. Prepare a written dental hygiene care plan from a dental hygiene diagnosis.
4. Apply procedures for discussing a care plan with the dentist and the patient.
5. Identify and apply measures for obtaining informed consent and informed refusal.

**Chapter 24 Preventive Counseling and Behavior Change**

1. Explain the steps in a preventive program, identify the need to conduct preventive counseling and describe the proper setting.
2. Describe the importance of partnering with the patient to come up with a plan for change.
3. Describe and explain the methods of motivational interviewing.
4. Describe how to recognize and explore the patient's ambivalence and describe techniques to elicit and recognize change talk.
5. Understand and explain various plans to strengthen the patient's commitment for change.

**Chapter 25 Protocol for Prevention and Control of Dental Caries**

1. Describe the dental caries disease process.
2. Identify factors contributing to demineralization and remineralization.
3. Distinguish each step in caries management.
4. Evaluate each patient for individual risk for caries disease.
5. Apply caries risk status in developing individualized caries management protocols and carefully document.

**Chapter 26 Oral Infection Control: Toothbrushes and Toothbrushing**

1. Identify the characteristics of effective manual and power toothbrushes.
2. Differentiate between manual toothbrushing methods, including limitations and benefits of each.
3. Describe the different modes of action of power toothbrushes.
4. Identify the basis for power toothbrush selection.
5. Describe tongue cleaning and its effect on reducing dental biofilm.
6. Identify adverse effects of improper toothbrushing on hard and soft tissues.

**Chapter 27 Oral Infection Control: Interdental Care**

1. Review the anatomy of the interdental area and explain why toothbrushing alone cannot remove biofilm adequately for prevention of periodontal infection.
2. Describe the types of interdental brushes and explain why they may be more effective than floss for some patients.
3. Describe the types of dental floss and outline the steps for use of floss or floss loops for biofilm removal from proximal tooth surfaces.
4. Develop a list of the types and purposes of various floss aids, including floss holders and power flossing devices, and provide a rationale for the choice of the best ones to meet a specific patient's needs.
5. Demonstrate and recommend other devices for biofilm removal, including toothpick in holder, wooden interdental cleaner, interdental rubber tip, and oral irrigation.

**Chapter 28 Dentifrices and Mouthrinses**

1. Identify and define the active and inactive components in dentifrices and mouthrinses.
2. Explain the mechanism of action for preventive and therapeutic agents in dentifrices and mouthrinses.
3. Explain the purpose and use of dentifrices and mouthrinses.
4. Discuss Food and Drug Administration (FDA) and the purpose of FDA.
5. Explain the American Dental Association Seal of Acceptance program and its purpose.

**Chapter 29 The Patient with Orthodontic Appliances**

1. Develop oral self-care recommendations for the orthodontic patient to address effective biofilm removal and reduce risk for dental caries and periodontal disease.

**Chapter 34 Fluorides**

1. Describe the mechanisms of action of fluoride in the prevention of dental caries.
2. Recommend appropriate over-the-counter (OTC) and professionally applied fluoride therapies based on each patient's caries risk assessment.
3. Compare use of fluoride home products (OTC and prescription).
4. Incorporate fluoride into individualized prevention plans for patients of various ages and risk levels.

**Chapter 44 Principles of Evaluation**

1. Identify and define key terms and concepts related to the evaluation of dental hygiene interventions.
2. Discuss standards for dental hygiene practice.
3. Identify skills related to self-assessment and reflective dental hygiene practice.

**Chapter 45 Continuing Care**

1. Describe the goals of a continuing care program in dental hygiene practice.
2. Determine appointment intervals based on an individual patient's risk factors, compliance, and oral health history.
3. Name and discuss the contributing factors in recurrence of periodontal disease.
4. List steps in a continuing care appointment including assessment, care plan, and therapy.
5. Outline methods for continuing care systems in the dental office or clinic.

## **APPENDIX**

### BEHAVIOR MODIFICATION PROJECT

This assignment will involve developing and implementing a behavior modification program on yourself for 3 weeks. It has been shown that it takes 3-5 weeks to establish a new behavior as a *habit*. You will choose a health behavior you would like to change.

Is there something you have been wanting to do for a long time? This does not need to be hard or involve suffering. What would life be like if we worked systematically and applied many good things that we know we should do? How many of us wear our seatbelts? Wear sunscreen or hats when in the sun? Drive defensively? Meditate and breathe deeply?

You will keep a brief daily Reflective Journal on your efforts to increase, decrease, or change the behavior. The act of writing can reinforce the process of behavioral change. Keep a pad of paper by your bed and jot down your progress daily toward your behavior change.

At the beginning of this project, there is one journal entry on Blackboard to complete. You will identify your behavior modification and answer some questions. At the end of week #1 and week #2, you will have additional journal entries to complete.

At the conclusion of the 3 weeks, you will submit a Reflective paper through Blackboard on your experience. The due date is listed in the syllabus schedule.

Some ideas of behaviors to increase, decrease, or change:

- Adhere to personal daily oral hygiene regimen – brushing/flossing frequency (daily, every other day, 1x week, threading through orthodontic wires/retainers, or adding of new oral hygiene aid
- Mouth rinse daily
- Xylitol gum regimen
- Smoking/tobacco use
- Finger nail biting
- Wearing a mouth guard or night guard
- Exercise, jogging, walking, swimming, yoga
- Water consumption
- Nutrition – eating 5 fruits/veggies a day, limit sugar, sodas, meat, caffeine, alcohol, drugs, eating/snacking, weight gain/loss
- Adherence to medical recommendations, using medications as prescribed
- Defensive driving, wearing seatbelt, observing speed limits
- Sun protection – sunscreen, hat
- Periodic self-exams – oral cancer screening, breast lumps, skin changes
- Emotional health – relaxation, recreation
- Mental health – positive thinking, interrupting negative talk
- Spiritual health – prayer, meditation
- Healthy relationships – setting boundaries, listening/talking balance, assertiveness
- Music, gardening, pets, hobby
- Anger habits – profanity, forgiveness
- Recycling, re-using
- Water or energy conservation

**BEHAVIOR MODIFICATION REFLECTION PAPER GRADING RUBRIC**

LIT Competency Statement	P3. Continuously perform self-assessment for lifelong learning and professional growth. HP5. Promote the values of oral and general health and wellness to the public and organizations within and outside the profession. PC13d. Develop and maintain a health maintenance program.
--------------------------------	--

The following are the questions that you are to address in the Reflection paper at the end of the 3 weeks. This assignment is to be uploaded into Blackboard by the due date listed in the class schedule.

**1) Paragraph 1: This section is worth 25% of the paper.**

Review the behavior you have chosen and why this is an important behavior for you. Include your history with or without the behavior of interest. Describe the problem and if you suspect to encounter any barriers or obstacles. Describe any prior attempts to change the behavior.

**2) Paragraph 2: This section is worth 20% of the paper.**

Describe any specific situations that affected your behavior during the 3 weeks. Make sure to include specific triggers related to your behavior. (When did it happen? Who were you with? What were you doing? Where were you? What were you saying to yourself?)

**3) Paragraph 3: This section is worth 20% of the paper.**

What was your initial plan to implement the behavior change? Did you use reinforcements (awards), punishments, and/or social support?

**4) Paragraph 4: This section is worth 25% of the paper.**

Reflect on the effectiveness of your program. How well did it work? Why was it effective or ineffective? Were there any problems that you had not anticipated? Will be able to continue the behavior beyond the classroom experience? Upon reflection, is there anything you would have done differently to solidify the behavior change?

**5) This section is worth 10% of the paper.**

The paper was well structured, well-organized with appropriate, clear, and smooth transitions; uses professional standards of written English. Proofread paper for grammar and spelling. All journal entries were submitted on time.

### **PATIENT EDUCATION FLIPBOOK INSTRUCTIONS**

This semester you will be creating a Flipbook that will be used in face-to-face patient education sessions during clinic in the next 3 semesters. This book will aid you in the discussion and presentation of information to your patient. You want the flipbook to be professional and to convey the information in a way that is comfortable for you.

Supplies needed:

1 ½" 3-ring binder

Clear sheet protectors for 3-ring binder

Computer

Printer

Computer paper

Adhesive product/double sided tape/glue, etc. (choose the product to secure the pictures to the page)

1. All the information needed to create the flipbook can be found in the following textbooks:
  - Clinical Practice of the Dental Hygienist textbook
2. Pictures may be used from the internet or from Dentalcare.com
  - Please keep pictures professional looking
  - Refrain from using cartoons
3. Flipbooks should be constructed where the patient is able to see the pictures while you provide the information. This will be demonstrated in class.
4. Please note the due dates for each section of the flipbook. The following topics will be addressed in the Patient Education Flipbook this semester:
  - Plaque
  - Caries
  - Gingivitis
  - Periodontitis
  - Toothbrushing
  - Flossing
  - Supplemental aids
  - Fluoride
  - Tobacco Cessation
5. Each section will be graded individually and feedback provided. If suggestions/corrections are made by the instructor, those should be complete by the final submission.
6. At the end of the semester, the flipbook will be turned in for a final grade with corrections made.
7. These flipbooks may be added to at any time during dental hygiene school. There may be other topics that are patient specific that you will want to address in the future.
8. The patient education flipbook will be 30% of your grade in Preventive Dental Hygiene Care.

**PATIENT EDUCATION FLIPBOOK GRADING RUBRIC**

LIT Competency Statement	HP5. Promote the values of oral and general health and wellness to the public and organizations within and outside the profession. HP6. Evaluate and utilize methods to ensure the health and safety of the patient and the dental hygienist in the delivery of dental hygiene. PC12. Implementation - Provide specialized treatment that includes preventive and therapeutic services designed to achieve and maintain oral health. a. Perform dental hygiene interventions to eliminate and/or control local etiologic factors to prevent and control caries, periodontal disease, and other oral conditions.
--------------------------------	--

Student Name \_\_\_\_\_ Grade \_\_\_\_\_ /47 = \_\_\_\_\_

The following criteria will be used to determine the grade of on the Patient Education Flipbook.

**1= Meets all requirements    1/2= Needs improvement    0= Requirements not met**

	Instruction/Description	Points earned
<b>PLAQUE PAGE</b>		
1	Correctly defines plaque (what is plaque?)	
2	Describes how it forms, where it forms, how soon does it form	
3	Informs how plaque is removed and how often should it be removed	
4	Appropriate use of pictures	
Feedback from instructor:		
<b>CARIES PAGE</b>		
5	Correctly defines what a carious lesion is	
6	Describes how a caries forms and the cause of caries	
7	Discusses possible treatment options	
8	Informs what may occur without treatment	
9	Discusses how to prevent caries	
10	Appropriate use of pictures depicting varying degrees of caries	
Feedback from instructor:		
<b>GINGIVITIS PAGE</b>		
11	Correctly defines gingivitis	
12	Describes the signs and symptoms of gingivitis vs. a healthy mouth	
13	Informs what causes gingivitis	
14	Informs how to eradicate gingivitis (is it reversible?)	
15	Appropriate use of pictures depicting gingivitis	
Feedback from instructor:		

<b>PERIODONTITIS PAGE</b>		
16	Correctly defines periodontitis	
17	Describes the signs and symptoms of periodontitis	
18	Informs what causes periodontitis	
19	Describes whether periodontitis is reversible or irreversible	
20	Appropriate use of pictures depicting periodontitis	
Feedback from instructor:		
<b>TOOTHBRUSHING INSTRUCTION PAGE</b>		
21	Purpose of proper brushing	
22	Describes proper brushing techniques	
23	Introduces types of toothbrushes/bristle texture	
24	Addresses toothbrushing time and frequency	
25	Includes statement regarding tongue brushing	
26	Appropriate use of pictures of brushing techniques	
Feedback from instructor:		
<b>FLOSSING INSTRUCTION PAGE</b>		
27	Purpose of flossing	
28	Describes proper flossing techniques	
29	Addresses flossing frequency	
30	Discusses types of floss	
31	Appropriate use of pictures depicting flossing techniques	
Feedback from instructor:		
<b>SUPPLEMENTAL AIDS PAGE</b>		
32	Purpose of supplemental aids	
33	Types of supplemental aids	
34	Proper use of supplemental aids	
35	Appropriate use of pictures depicting use of supplemental aids	
Feedback from instructor:		
<b>FLUORIDE PAGE</b>		
36	Defines fluoride	
37	Purpose/benefits of fluoride/demineralization vs remineralization process	
38	Discusses where fluoride is found or where patient may receive fluoride	
39	Appropriate use of pictures depicting fluoride or products containing fluoride	
Feedback from instructor:		

<b>TOBACCO CESSATION PAGE</b>		
40	Describes how tobacco affects the oral cavity and overall general health	
41	Discusses nicotine dependency and possible treatments	
42	Provide alternative resources for quitting dependency	
43	Appropriate use of pictures depicting tobacco use/forms of tobacco/quit help-lines	
Feedback from instructor:		
<b>GENERAL GRADING</b>		
44	All submissions were turned in on time	
45	All corrections were made upon final submission	
46	Overall appearance of flipbook remained neat and professional	
47	Final submission was properly assembled for use with patient	
Feedback from instructor:		

### **PATIENT EDUCATION VIDEO ASSIGNMENT INSTRUCTIONS**

This assignment will be a recorded video session with a person of your choice (i.e. mother, father, sister, brother, husband, wife, BFF, etc.) to demonstrate concise communication skills when delivering patient education topics. The person that you choose should be 18 years of age or older. The purpose of the assignment is to assist the student in learning effective communication skills, learn how to incorporate their patient education Flipbook and to receive feedback based on the recorded presentation. This assignment will also assist the student in preparation of upcoming semesters when patient education will be utilized with patients in the clinic setting.

There is no time limit/constraint for the video as long as the student has covered the pertinent information needed to convey understanding of the topic being presented.

The student will record their session with a person representing a patient in the clinic. Please be seated at a table facing each other and record the session where both persons can be seen. Once the video is complete, the video will be uploaded into Blackboard under the Patient Education Videos tab. Please select the correct assignment file to upload the corresponding topic.

Specific items to consider when planning the session:

- Communication skills: pronunciation of words and terms, eye contact, minimal reading, clarity of subject matter
- Organization of material: material flowed in a manner that was easy to understand
- Knowledge of subject: demonstrates understanding of each topic; able to answer questions
- Interaction with patient: engaged patient into the discussion; asked questions; kept their attention

Instructions on how to upload a video into Blackboard are posted in the Patient Education Videos section of Blackboard.

Each video presentation will be worth 20 points. There will be 5 videos total to complete which will total to 100 points. This assignment will be 10% of your course grade.

**PATIENT EDUCATION VIDEO ASSIGNMENT GRADING RUBRIC**

LIT Competency Statement	<p>P2. Assume responsibility for dental hygiene actions and care based on accepted scientific theories and research as well as the accepted standard of care.</p> <p>P4. Communicate effectively with individuals and groups from diverse populations both verbally and in writing</p> <p>HP5. Promote the values of oral and general health and wellness to the public and organizations within and outside the profession.</p>
--------------------------	--

CRITERIA		1	3	5	SCORE
SPEAKING SKILLS	Made eye contact with patient with minimal reading	Student reads with no eye contact and does not use correct pronunciation	Student occasionally uses eye contact; some words were incorrect	Student is able to present information with minimal reading; used correct pronunciation	
	Uses correct pronunciation				
ORGANIZATION/CLARITY	Subject matter flowed easily	Sequence of information is difficult to follow/Student jumps around	Some of the information flowed well/most in logical sequence	Student presents information in a logical & interesting sequence	
	Subject matter disconnected				
CONTENT/KNOWLEDGE OF SUBJECT	Demonstrates knowledge of subject	Student does not have a grasp of the information; cannot answer patient questions	Student mostly understands subject material; able to answer most questions	Student demonstrates full knowledge of subject; is able to answer all questions	
	Is able to answer questions if asked				
INTERACTION WITH PATIENT	Was able to keep patients attention	Made no attempt to engage the patient into the discussion	Made some attempts to engage the patient in the discussion	Engaged patient into discussion and was able to hold attention	
	Asked the patient questions during the presentation to check knowledge				
Possible Points (20) = TOTAL SCORE					

### **CARE PLAN ASSIGNMENT INSTRUCTIONS**

A formal written care plan is an essential part of the dental hygiene process of care. Dental hygiene care is planned to address the needs of the entire oral cavity. The care plan is based on the collection of data from assessment examinations which include:

- Medical/dental history
- Oral exam assessment
- Periodontal assessment
- Radiographic findings
- Dental charting
- Periodontal charting
- Plaque score/bleeding score

The written plan is a prioritized sequence of dental hygiene interventions create a comprehensive plan to restore health of the patient's oral cavity. It is designed to develop critical thinking skills by addressing significant findings, explain what its relevance is to dental hygiene treatment, the procedure or intervention to address that condition, the reason why we are addressing it and how much time the student feels he/she will need (self-assessment with time management).

It assists the student to determine an individualized plan to assist the patient with needed skills, knowledge, and motivation to improve their oral health.

The following are the steps needed to develop a thorough and individualized plan:

- Step 1 - Write down all of the positive findings.
- Step 2 - Identify specific problems
  - (gingivitis, periodontitis, caries, dry mouth)
- Step 3 - Place the problem in the proper priority sequence within the treatment plan.
- Step 4 - Determine the etiology of the problem
- Step 5 - Determine contributing/predisposing factors that correlate with the problem or risk factors
- Step 6 - Determine patient education topics that are indicated to address each problem.
- Step 7 - Develop treatment options for each problem, list referrals if appropriate.
- Step 8 - List preventive therapies designed to address each problem

Each student will be given a fictitious patient to create a written care plan. The due date is listed in the class schedule. All materials in the notebook will be returned, along with the written care plan and the grading rubric for grading. The care plan is 15% of the course grade.

## CARE PLAN TEMPLATE

Care Plan submission will use findings from included patient information.

**Student Name** \_\_\_\_\_

**Patient Name** \_\_\_\_\_ **Age** \_\_\_\_\_

**Chief Complaint:** \_\_\_\_\_

**1. Medical History:** (list any positive medical history findings from the medical & social history. Correlate the finding places the patient at risk for.)

**Medical History Findings** **At Risk For:**

---

**2. Dental History:** (List past and/or present dental disease, the chief complaint, and the present oral hygiene habits. Correlate the effects on periodontal diagnosis, and/or care)

**Dental History Findings** **At Risk For:**

---

**3. Head & Neck/Intra-Oral Examination:** (List the positive findings, habits and awareness. Correlate the effects on periodontal diagnosis)

**Oral Examination Findings** **At Risk For:**

---

**4. Periodontal Examination:** (make a statement regarding the color, contour, texture, consistency, general biofilm locations, biofilm retentive features, predisposing factors to biofilm retention, overall pocket depths, bone loss, make reference to location of bleeding sites, etc.)

**Periodontal Examination Findings** **At risk for:**

---

- a. **Periodontitis Stage:** \_\_\_\_ **Periodontitis Grade:** \_\_\_\_
- b. **Plaque Score:** \_\_\_\_ **Evaluation of plaque score:** \_\_\_\_\_
- c. **Bleeding Score:** \_\_\_\_ **Evaluation of bleeding score:** \_\_\_\_\_

**Create a generalized statement regarding the patient's periodontal condition:**

---

**5. Dental Charting Examination:** (List all findings from dental charting exam. Examples are caries, attrition, midline position, occlusion, abfractions, etc. Correlate to effect on periodontal diagnosis, progression, and/or care)

**Dental Charting Findings:** \_\_\_\_\_ **At Risk For:** \_\_\_\_\_

**6. Radiographic Findings:** (List the conditions such as crown to root ratio, bone loss, condition of interproximal bony crests, thickened lamina dura, calculus, and root resorption)

**Radiographic Findings:** \_\_\_\_\_ **At Risk For:** \_\_\_\_\_

**7. Dental Hygiene Diagnosis:** (List all of the dental hygiene related problems associated with this patient, with each problem list the etiology)

**Dental Hygiene Problem:** \_\_\_\_\_ **Etiology:** \_\_\_\_\_

**8. Treatment/Appointment Plan:** (Include assessment findings of patient needs, appropriate treatment, and education plan- include long and short term goals) Each long term goal should be supported by at least 2 short term goals.

**Initial Appointment/Appointment 1: (Data collection and assessment)**

<b>Completed:</b>	<b>Chairside Oral Hygiene Assessment</b>

**Appointment 2:**

**Plan for Treatment:**                      **Goals:**                      **Plan for Education and/or Oral Hygiene Instruction**

	<b>LTG #1:</b> <ul style="list-style-type: none"><li>• STG:</li><li>• STG:</li><li>• STG:</li></ul>	
--	---	--

**Appointment 3:**

**Plan for Treatment:**                      **Goals:**                      **Plan for Education and/or Oral Hygiene Instruction**

	<b>LTG #2:</b> <ul style="list-style-type: none"><li>• STG:</li><li>• STG:</li><li>• STG:</li></ul>	
--	---	--

**Appointment 4:**

**Plan for Treatment:**                      **Goals:**                      **Plan for Education and/or Oral Hygiene Instruction**

	<b>LTG #3:</b> <ul style="list-style-type: none"><li>• STG:</li><li>• STG:</li><li>• STG:</li></ul>	
--	---	--

**Appointment 5: (if needed)**

**Plan for Treatment:**

**Goals:**

**Plan for Education and/or Oral  
Hygiene Instruction**

	<b>LTG:</b> <ul style="list-style-type: none"><li>• <b>STG:</b></li><li>• <b>STG:</b></li><li>• <b>STG:</b></li></ul>	
--	---	--

**9. Prognosis:** (Is the prognosis good, fair, poor, questionable, or hopeless.....base and support your answer on age, number of teeth, systemic/social background, malocclusion, periodontal examination, recall availability)

**10. Supportive Therapy:** State the suggestions made to patient regarding re-evaluation, referral, and recall schedule. (Note: Include date of recall appointment below.)
