STARFISH

LIT utilizes an early alert system called Starfish. Throughout the semester, you may receive emails from Starfish regarding your course grades, attendance, or academic performance. Faculty members record student attendance, raise flags and kudos to express concern or give praise, and you can make an appointment with faculty and staff all through the Starfish home page. You can also login to Blackboard or MyLIT and click on the Starfish link to view academic alerts and detailed information. It is the responsibility of the student to pay attention to these emails and information in Starfish and consider taking the recommended actions. Starfish is used to help you be a successful student at LIT.

ADDITIONAL COURSE POLICIES/INFORMATION

All coursework should be submitted on blackboard by the due date/time. If experiencing difficulties, I MAY allow email submissions at sttanner@lit.edu on a case-by-case basis, if you notify me prior to the due date of your difficulty. Late work/make up exams MAY be given/accepted on a case-by-case basis at my sole discretion.

You will find under the modules tab on Blackboard, a weekly folder that will contain that week's work. Each week's folder will contain the power point outlines and video lectures for that week as well as any other supplemental assignments. Students should view the power point outline and listen to the lectures each week, as well as complete any discussion topic and/or other assignments in the folder.

Respectful participation on class discussion boards is expected. At times, students may have differing viewpoints from those of their classmates. Disagreements lead to critical thinking, scholarly debates, and learning, however, disrespect for the opinions of others will NOT be tolerated and any degrading or derogatory remarks directed toward any person (in the class or in general) will result in no credit given for that post.

I will hold short virtual meetings for the class throughout the semester, for students who wish to speak to me or discuss the lectures/assignments or ask questions in real time. The virtual meetings are a great way for us to get to know each other and to communicate about the course. Participation in at least one virtual meeting this semester is encouraged but not required. Details of the virtual meetings will be posted on Blackboard as they are scheduled. Students needing to meet one on one, outside of the class meetings, can request an individual virtual meeting at a time to be agreed upon.

Current Events Extra Credit: I offer up to 10 points of extra credit work for each of the four exams. Students who wish to take advantage of the extra credit opportunity should email me or attend a virtual meeting prior to each exam for details.

Students are **REQUIRED** to download the respondus lockdown browser and use it to take each exam. Students attempting to take the exam without using the lockdown browser will not be able to access the exam and will receive a zero for failing to take the exam. Blackboard support has always been able to help those who have difficulty with lockdown browser therefore, technology difficulties will not excuse you from taking the exam.
