BENEFITS

Protection when faced with
a critical illness diagnosis
and you need treatment

Critical Illness Insurance

No one is ever really prepared for a life-altering critical illness diagnosis. The whirlwind of appointments, tests, treatments and medications can add to your stress levels.

The treatment to recovery is vital, but it can also be expensive. Your medical coverage may only cover some of the costs associated with treatment. You're still responsible for deductibles and coinsurance. If treatment keeps you out of work, the financial worries can grow quickly and stress levels may rise.

Critical Illness coverage helps provide financial support if you are diagnosed with a covered critical illness. With the expense of treatment often high, seeking the treatment you need could seem like a financial burden. When a diagnosis occurs, you need to be focused on getting better and taking control of your health, not stressing over financial worries.

Here's How It Works

You choose benefits to protect yourself and any family members if diagnosed with a critical illness. Then, if diagnosed with a covered critical illness, you will receive a cash benefit based on the percentage payable for the condition.

Meeting Your Needs

- Guaranteed Issue coverage with a Pre-Existing Condition Limitation*
- Coverage available for individual and child(ren) or family
- Covered dependents receive 50% of your Basic-Benefit Amount
- Benefits paid regardless of any other medical or disability plan coverage
- Premiums are affordable and conveniently payroll deducted
- Coverage may be continued; refer to your certificate for details

With Allstate Benefits, you can make treatment decisions without putting your finances at risk. **Practical benefits for everyday living.**®

Meet Ashley

Ashley is like any single parent who has been diagnosed with a critical illness. She's worried about her future, her children and how they will cope with her treatments. Most importantly, she worries about how she will pay for it all.

Here is what weighs heavily on her mind:

- Major medical only pays a portion of the expenses associated with my treatment
- I have copays I am responsible for until I meet my deductible
- If I am not working due to my treatments, I must cover my bills, rent/mortgage, groceries and my children's education
- If the right treatment is not available locally, I will have to travel to get the treatment I need

Ashley's story of diagnosis and treatment turned into a happy ending, because she had supplemental Critical Illness Insurance to help with expenses.

CHOOSE

Ashley chooses Critical Illness and rider benefits to help protect herself and her children, if they are diagnosed with a critical illness.

USE

During Ashley's annual wellness exam, her doctor noticed an irregular heartbeat. She underwent an electrocardiogram (EKG) test and stress test, which confirmed she had a blockage in one of her coronary arteries.

Here's Ashley's treatment path:

- Ashley has her annual wellness exam
- Her doctor notices an abnormality in her heartbeat; tests are performed and she is diagnosed with coronary artery disease
- After visits with doctors, surgeons and an anesthesiologist, Ashley undergoes surgery
- Surgery is performed to remove the blockage with a bypass graft. She is visited by her doctor during a 4-day hospital stay and released
- Ashley followed her doctor required treatment during a 2-month recovery period, and had regular doctor office visits

Ashley is doing well and is on the road to recovery.
