89th Regular Session, Agency Submission, Version 1
Automated Budget and Evaluation System of Texas (ABEST)

789 Lamar Institute of Technology

Established in 1995 by the Texas Legislature, Lamar Institute of Technology (LIT) is a post-secondary coeducation organization, a two-year technical institution within the Texas State University System (TSUS) that offers associate degrees, certificates, and non-credit workforce skills training. LIT supports the workforce needs of the region and state by providing training and education in the fields of Allied Health, Business, General Education, Public Service and Safety, Technology and Workforce, and Continuing Education. LIT also offers course flexibility with day, evening, and weekend classes, along with various semester term lengths to accelerate degree completion. The college continues to achieve enrollment growth with around 6,349 unduplicated credit students annually for the 2023-2024 academic year with quality instruction and personal attention. Anyone with a dream to succeed can attend LIT and receive immersive, hands-on learning experiences and skills that prepare them to be career ready.

The college's mission is to provide innovative training for tomorrow's workforce. LIT resides in Beaumont, Texas and specializes in two-year degrees and certifications in leading programs that provide world-class education and hands-on training to prepare students of all backgrounds for careers in high-demand and high-growth fields. The college is able to fulfill its mission with the support of the Legislature and is a strong contributor towards the goal of the Texas Higher Education Coordinating Board's "Building a Talent Strong Texas." As a result, we want to show our gratitude to the Legislature for their continued formula funding support and funding commitment (capital and operational). We are also grateful for the HB8 initiative from the last legislative session administered by the THECB that has made a meaningful difference to our students and community. Lastly, LIT appreciates the increase in the annual HEF appropriation recommended by the THECB as it will allow for maintenance and light renovation to our aging facilities.

LIT serves the citizens of Southeast Texas by delivering both career training and academic transfer options. The college offers over seventy-five awards that support the workforce needs of the region including process operating technology, utility line technology, dental hygiene, cyber security and networking, and more. LIT is also home to the regional fire and police academies and truck driving academy. The increase in demand for skilled labor has prompted LIT to continue its expansion by offering new programs for Spring 2025. Innovative programs offered include nursing, electrical, plumbing, mechatronics, engineering technicians, and automotive technology. These programs will enhance LIT's current course offerings and career pipeline to allow more highly trained students to enter the workforce. Spring 2024 commencement was one of LIT's largest with over 700 graduates earning 746 degrees and certificates. The graduating class represented a 6% increase over Spring 2023. Graduates ranged from ages 18 to 84, with 38% dual credit students and 81% first-generation college graduates.

In addition to traditional learners, LIT works to increase post-secondary attainment and exposure through a dual credit partnership with thirty-two school districts. This program provides opportunities for students to graduate with not only their high school diploma, but an associate degree, certificate, or transferable credits, to put them ahead and ready to enter the workforce by the time they complete high school. Beaumont Independent School District, Silsbee Independent School District, High Island Independent School District, and Evolution Academy are strategic partners and are central to LIT's Early College High Schools (ECHS). The success of dual credit has been extraordinary and has supplemented our enrollment growth.

With a 92% job placement rate, LIT prides itself in providing students with a worthwhile education, delivered by knowledgeable instructors, which will subsequently open doors to quality career opportunities with competitive salaries. In fact, graduates of the process operating technology program starting salaries can exceed \$80,000 per year and experienced operators earn well over \$100,000. A recent Forbes article spotlighted the ten highest-paying associate degrees in 2024, which features dental hygiene, diagnostic medical sonography, respiratory therapy, and radiologic technology, all of which are offered here at LIT. The sonography program has also been recognized as #3 in the nation by College Choice and is the only Texas institution listed in the top ten. LIT students annually find success at the SkillsUSA Career and Technical Education competition, bringing home gold medals at the state level in 2023 and 2024 and bronze medals at the national level in 2023. Additionally, LIT Process Operating students placed as the top two teams in the North America Process Technology (NAPTA) Association National Troubleshooting Competition in April 2024.

Administrator's Statement

89th Regular Session, Agency Submission, Version 1
Automated Budget and Evaluation System of Texas (ABEST)

789 Lamar Institute of Technology

LIT performs criminal background and E-Verify checks on hired individuals and vendors who have permanent staffing on campus.

Lamar Institute of Technology is submitting four exceptional item requests for consideration.

1. FORMULA FUNDING RATE INCREASE - \$8.16 to \$9.16.

LIT is appreciative for the continued formula funding support from the Texas Legislature. The Legislature's steadfast commitment to capital and operational funding to LIT is paramount to providing low cost, high quality educational opportunities to our community. LIT asked for an increase in our formula funding rate to reduce our reliance on tuition. The Legislature was able to fund our request over the last three sessions, bringing our instructional and administrative funding rate to \$8.16. The additional funding through the instructional and administrative formula would allow the State colleges to not only maintain the tuition reduction for our current students as we fight inflationary factors, but also position us to retain and attract qualified faculty with competitive wages. As we address the challenges of a retiring workforce accompanied by the market factor of supply and demand for qualified faculty, this support would strategically position LIT to face the challenges with the Legislature's support.

2. TECHNICAL PROGRAM SUPPORT - FY2026-\$750,000 FY2027-\$750,000.

In Southeast Texas, there is a significant demand for skilled technology technicians to meet the workforce needs of various industries. According to Industrial Info Resources July 2023 forecast, the Texas Golden Triangle is expected to see around \$11 billion in project starts, alongside approximately 294 active projects totaling \$80 billion. To address the labor needs in Southeast Texas, Lamar Institute of Technology is developing new programs to produce skilled and qualified technicians ready to meet current and future workforce demands. LIT is committed to delivering education and training that equips graduates with practical knowledge and technical skills essential for success across various industries. LIT plans to launch the following technician programs in Spring 2025:

- Mechatronics,
- Commercial Electrical,
- Electronics,
- Computer Engineering,
- Electromechanical Engineering, and
- Robotics and Automation.

LIT has constructed a 15,000 square foot Advanced Technology Center to house the new technician programs. These programs will be available to traditional and dual credit students with day, evening, and weekend class offerings.

Funding will support the hiring of up to six full-time faculty, as well as the purchasing of state-of-the-art equipment and software for instruction and specialized training.

3. PUBLIC SERVICE AND SAFETY CENTER - FY2026-\$10,000,000 FY2027-\$0.

In response to the growing need for comprehensive training and education for first responders, LIT is requesting \$10 million for the creation of a Public Service and Safety Center (Center). The Center will house LIT's existing Regional Police Academy, Regional Fire Academy, and Emergency Medical Services programs. The proposed Center will be strategically located in Southeast Texas and accessible to emergency personnel from surrounding counties and cities. The Center will be placed on twenty-five acres of land, include a 22,000 square foot building, and training grounds to include:

- Classroom Facilities: Modern classrooms equipped with multimedia capabilities for interactive lectures, workshops, and seminars on topics ranging from disaster management to specialized

Administrator's Statement

789 Lamar Institute of Technology

rescue techniques.

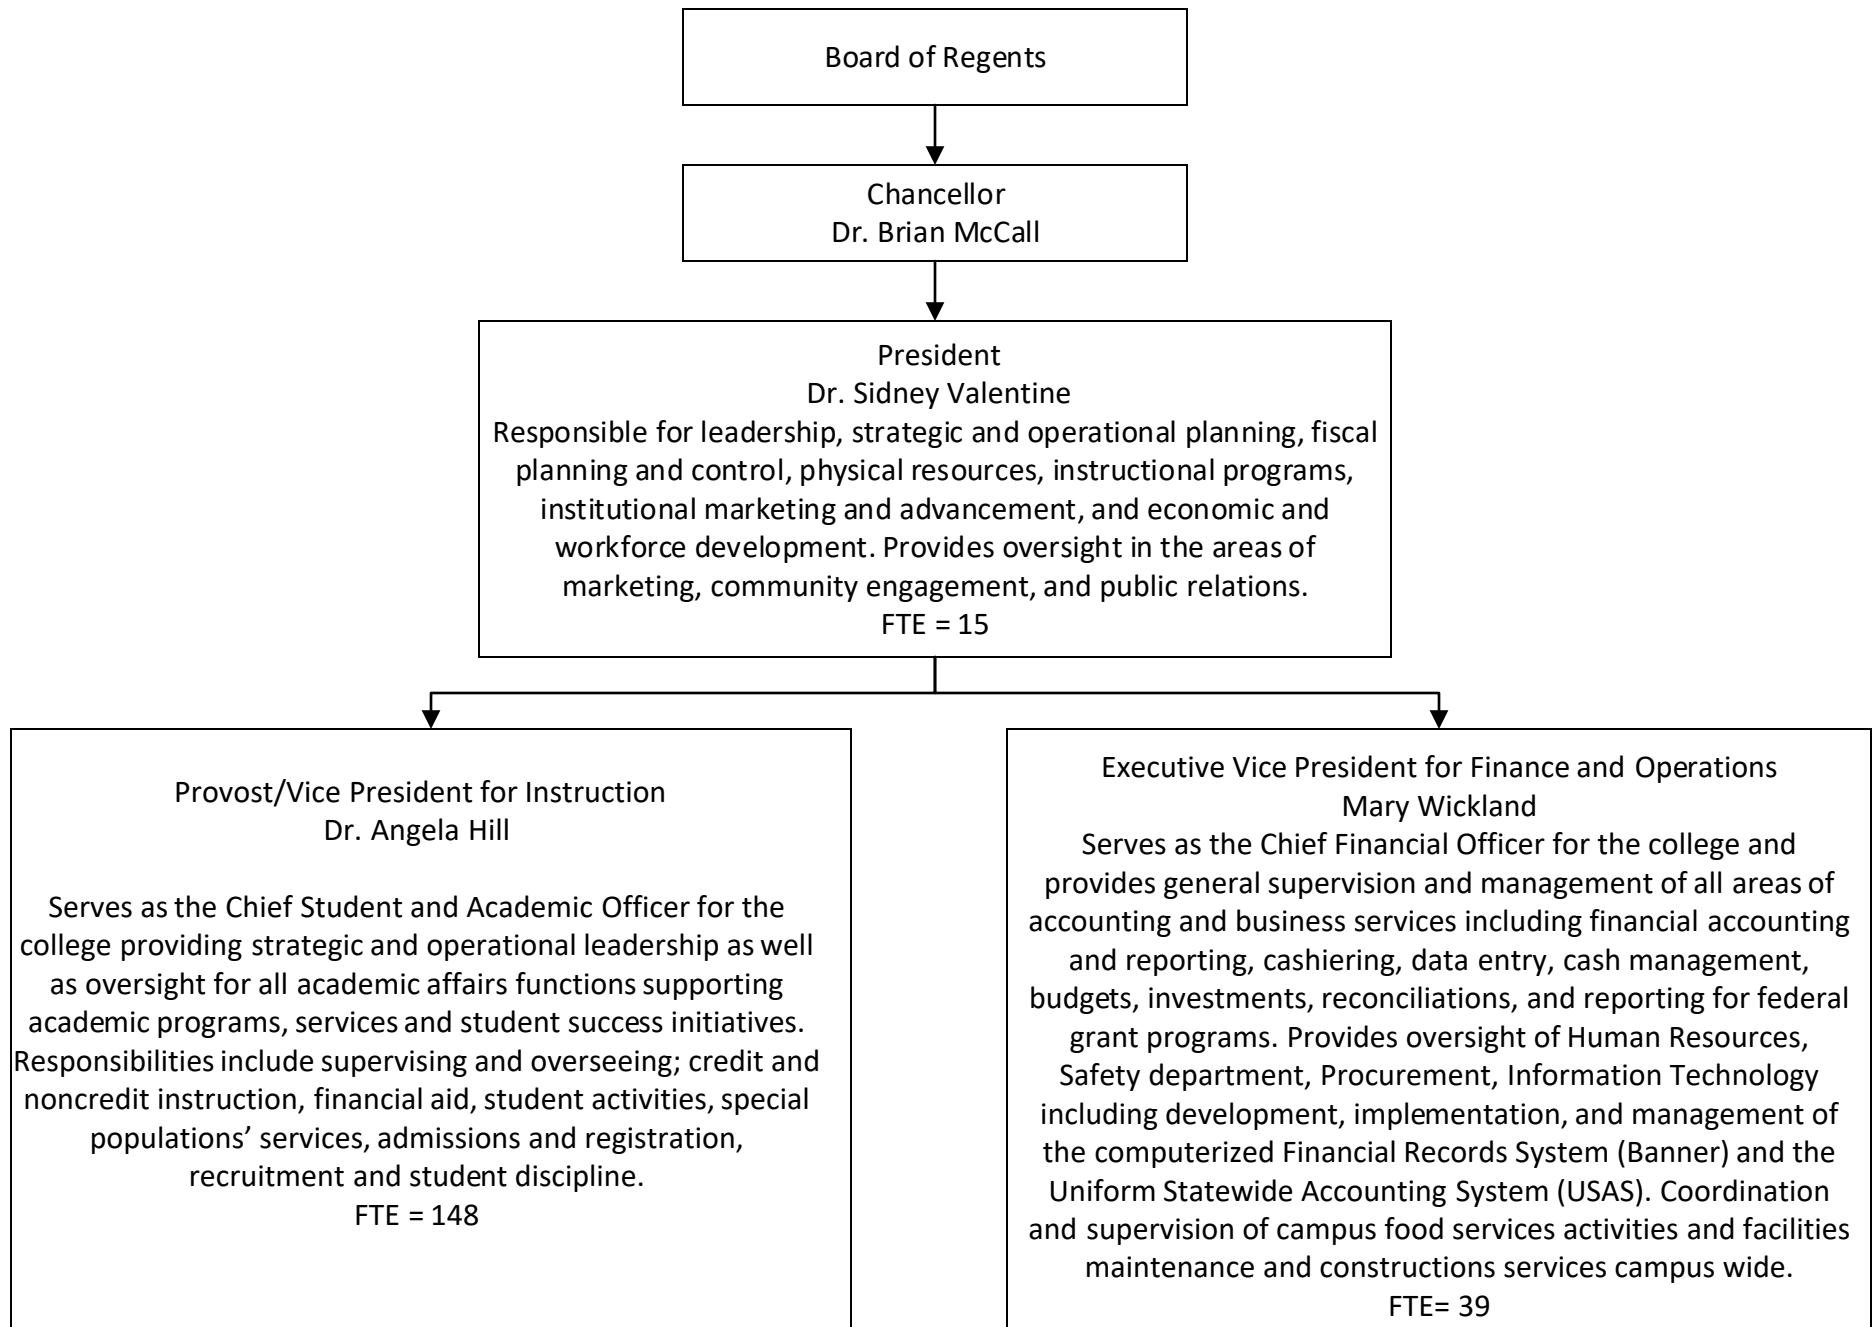

- **Simulation Labs:** Advanced simulation equipment and scenarios replicating real-world emergency situations.
- **Collaborative Spaces:** Meeting rooms and collaboration areas to facilitate networking, information sharing, and joint training initiatives among different emergency response agencies.
- **Outdoor Training Areas:** Diverse outdoor spaces for hands-on exercises and drills, including a police driving course, obstacle course, police firearm range, Sable Live Fire System providing live-fire scenarios, industrial fire training area, and a live scenario building for search, rescues, and first responder training.
- **Technology Integration:** Integration of state-of-the-art technologies such as virtual reality and simulations to provide immersive training experiences.

LIT is the only TSUS institution in Southeast Texas that offers regional police and fire academy programs. The college currently provides viable, high-quality training, education, and workforce development opportunities for local and regional first responders. Programs such as fire, police and emergency medical services play a critical role in ensuring the safety, security, and well-being of communities across the country. The state-of-the-art Center will provide high-quality specialized training, simulation, and immersive learning and training opportunities to students and current emergency and first responders. Education and training opportunities will be provided to local, regional, and state public service and safety agencies.

4. STUDENT SUCCESS AND ACADEMIC CENTER - FY2026-\$4,298,586 FY2027-\$4,298,586.

LIT is requesting debt service on a \$50,000,000 Capital Construction Assistance Project for the construction of a new Student Success and Academic Center. The building will provide LIT with a new campus front door focused student center with tutoring, veteran's services, cashiering, and student space. The building will also include general-purpose instructional space and administrative support spaces. As LIT continues to grow, this Center will allow us to better serve our students.

DESCRIPTION / JUSTIFICATION:

In Southeast Texas, there is a significant demand for skilled technology technicians to meet the workforce needs of various industries. According to Industrial Info Resources July 2023 forecast, the Texas Golden Triangle is expected to see around \$11 billion in project starts, alongside approximately 294 active projects totaling \$80 billion. To address the labor needs in Southeast Texas, Lamar Institute of Technology is developing new programs to produce skilled and qualified technicians ready to meet current and future workforce demands. LIT is committed to delivering education and training that equips graduates with practical knowledge and technical skills essential for success across various industries. LIT plans to launch the following technician programs in Spring 2025: Mechatronics, Commercial Electrical, Electronics, Computer Engineering, Electromechanical Engineering, and Robotics and Automation.

EXTERNAL/INTERNAL FACTORS:

LIT would be able to offer immersive learning environments with qualified faculty and state of the art equipment to current and future students . These technology technician programs further exemplify LIT’s mission to offer innovative education, training, and career development for tomorrow’s workforce. The college will drive innovation and industry collaboration while ensuring quality instruction and graduate success to meet technician workforce needs in the state and Southeast Texas .

DESCRIPTION / JUSTIFICATION:

In response to the growing need for comprehensive training and education for first responders, LIT is requesting \$10 million for the creation of a Public Service and Safety Center (Center). The Center will house LIT's existing Regional Police Academy, Regional Fire Academy, and Emergency Medical Services programs. The proposed Center will be strategically located in Southeast Texas and accessible to emergency personnel from surrounding counties and cities. The Center will be placed on twenty-five acres of land, include a 22,000 square foot building, and training grounds.

EXTERNAL/INTERNAL FACTORS:

LIT would be able to create the Public Service and Safety Center and enhance its current education and workforce training opportunities. The Center further exemplifies LIT's mission to offer innovative education, training, and career development for tomorrow's workforce. LIT's longstanding partnerships with local and regional emergency response agencies will contribute with the Center's development by ensuring that facility and programs align with industry standards and meet the needs of the community.

DESCRIPTION / JUSTIFICATION:

LIT is requesting debt service on a \$50,000,000 Capital Construction Assistance Project for the construction of a new Student Success and Academic Center. The building will provide LIT with a new campus front door focused student center with tutoring, veteran’s services, cashiering, and student space. The building will also include general-purpose instructional space, and administrative support spaces.

EXTERNAL/INTERNAL FACTORS:

As LIT continues to grow, this Center will allow us to better serve our students.

	Total Expenditures		27.5%		\$2,278,220	\$8,272,595		28.5%		\$3,189,549	\$11,182,478	

B. Assessment of Attainment of HUB Procurement Goals

Attainment:

Agency exceeded three (3) of the six (6) applicable statewide HUB goals in 2022.
 Agency exceeded two (2) and was very close to attaining a third of the six (6) applicable statewide HUB goals in 2023.

Applicability:

Heavy Construction was not applicable to this agency's operations in 2022 and 2023.
 Professional Services was not applicable to this agency's operations in 2022 and 2023.

Factors Affecting Attainment:

Lamar Institute of Technology continues to seek solicitations in all applicable categories. The agency's geographic area presents challenges to obtain special trade HUB vendors.

C. Good-Faith Efforts to Increase HUB Participation

Outreach Efforts and Mentor-Protégé Programs:

LIT did not have a formal mentor-protégé program during this period.

HUB Program Staffing:

LIT HUB program staffing consists of (1) staff person working 20% with HUB, 50% with purchasing and 30% with contracts.

Current and Future Good-Faith Efforts:

6.A. Historically Underutilized Business Supporting Schedule
89th Regular Session, Agency Submission, Version 1
Automated Budget and Evaluation System of Texas (ABEST)

Date: **8/15/2024**

Time: **4:19:11PM**

Agency Code: **789** Agency: **Lamar Institute of Technology**

In FY22 and FY23, LIT sponsored the Golden Triangle Minority Business Council's Statewide HUB Expo. LIT's HUB Coordinator attended several events and presented at forums in FY22 and FY23. LIT staff participated in the Senator West Spot Bid Fair in FY22 and FY23. Agency personnel continue to work with internal departments on utilizing HUB vendors whenever possible. The agency made good faith efforts when issuing formal solicitations on ESBID.

Project Description

LIT is requesting debt service on a \$50,000,000 Capital Construction Assistance Project for the construction of a new Student Success and Academic Center. The building will provide LIT with a new campus front door focused student center with tutoring, veteran's services, cashiering, and student space. The building will also include general-purpose instructional space, and administrative support spaces.

789 Lamar Institute of Technology

Associate Arts Degree

(1) Year Non-Formula Support Item First Funded: 2016
Year Non-Formula Support Item Established: 2016
Original Appropriation: \$250,000

(2) Mission:

The addition of these degree programs provide opportunity for Lamar Institute of Technology to provide a comprehensive post secondary education program.

(3) (a) Major Accomplishments to Date:

Spring 2024 commencement was one of LIT's largest with over 700 graduates earning 746 degrees and certificates. The graduating class represented a 6% increase over Spring 2023. Graduates ranged from ages 18 to 84, with 38% dual credit students and 81% first-generation college graduates.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

In addition to traditional learners, LIT works to increase post-secondary attainment and exposure through a dual credit partnership with thirty-two school districts. This program provides opportunities for students to graduate with not only their high school diploma, but an associate degree, certificate, or transferable credits, to put them ahead and ready to enter the workforce by the time they complete high school.

(4) Funding Source Prior to Receiving Non-Formula Support Funding:

There were no sources of funding prior to receiving the funds.

(5) Formula Funding:

Assumptions used for associated formula amounts 2026-27 Instructions All Fund Rates.

(6) Category:

Instructional Support

(7) Transitional Funding:

N

(8) Non-General Revenue Sources of Funding:

None

(9) Impact of Not Funding:

Psychology, Chemistry, Mathematics and Biology Instructor positions would be reduced if state funding is discontinued. The region will not have increased opportunities to continue with post secondary education in order to transfer to universities within our state, including Lamar University.

789 Lamar Institute of Technology

(10) Non-Formula Support Needed on Permanent Basis/Discontin

Yes this non-formula support item is needed on a permanent basis.

(11) Non-Formula Support Associated with Time Frame:

N/A – This non-formula support item requires on going support.

(12) Benchmarks:

N/A – This non-formula support item requires on going support.

(13) Performance Reviews:

LIT's AA degrees had 334 students enrolled in the 2023 Fall semester.

789 Lamar Institute of Technology

Institutional Enhancement

(1) Year Non-Formula Support Item First Funded: 2000
Year Non-Formula Support Item Established: 2000
Original Appropriation: \$1,307,045

(2) Mission:

The primary purpose of the institution is to provide technical and academic education. This Non-Formula Support Item will continue to help the institution provide adequate funding to provide quality instruction, technical equipment, and infrastructure to support high technology areas.

(3) (a) Major Accomplishments to Date:

Faculty salaries and instructional equipment have been funded by Institutional Enhancement.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

The majority of these funds will be used to support the education mission for technical and academic programs including faculty and staff salaries, equipment, and technology upgrades campus-wide.

(4) Funding Source Prior to Receiving Non-Formula Support Funding:

Formula funding and local funds sources at a much reduced level of funding.

(5) Formula Funding:

None

(6) Category:

Institutional Enhancement

(7) Transitional Funding:

N

(8) Non-General Revenue Sources of Funding:

None

(9) Impact of Not Funding:

Limited qualified faculty and staff, deterioration of existing equipment resources, lack of new technology for high tech programs, and inadequate funding to accomplish the overall educational mission at Lamar Institute of Technology. Instructor positions would be reduced causing programs to be closed if state funding is discontinued.

789 Lamar Institute of Technology

(10) Non-Formula Support Needed on Permanent Basis/Discontinuu

Yes this non-formula support item is needed on a permanent basis.

(11) Non-Formula Support Associated with Time Frame:

N/A - This non-formula support item requires on going support.

(12) Benchmarks:

N/A - This non-formula support item requires on going support.

(13) Performance Reviews:

LIT has experienced an enrollment growth with 4,011 students in Fall 2019 to 5,261 students in Fall 2023.

789 Lamar Institute of Technology

Professional Truck Driving Academy

(1) Year Non-Formula Support Item First Funded: 2020
Year Non-Formula Support Item Established: 2020
Original Appropriation: \$550,000

(2) Mission:

Lamar Institute of Technology requests funding of \$1,100,000 for the biennium to continue expansion of the LIT's current Truck Driving Program and to renovate and operate the recently donated 6,600 square foot building that will house this program. Expansion of this program will allow LIT to serve more students per year.

(3) (a) Major Accomplishments to Date:

LIT has trained Class A students, Class B students, refresher students, and advanced refresher students since 2018 to present. LIT has purchased three automatic tractors, a standard tractor (13 speed), a dump truck (10 speed), a Crew Cab class B truck (automatic), simulator, and two 28 ft. trailers.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

Further expansion will allow LIT to serve more students per year.

(4) Funding Source Prior to Receiving Non-Formula Support Funding:

There were no sources of funding prior to receiving the funds.

(5) Formula Funding:

None

(6) Category:

Instructional Support

(7) Transitional Funding:

N

(8) Non-General Revenue Sources of Funding:

None

(9) Impact of Not Funding:

LIT's Truck Driving Academy will not be expanded to serve more students per year.

789 Lamar Institute of Technology

(10) Non-Formula Support Needed on Permanent Basis/Discontinuu

Yes this non-formula support item is needed on a permanent basis.

(11) Non-Formula Support Associated with Time Frame:

N/A - This non-formula support item requires on going support.

(12) Benchmarks:

N/A - This non-formula support item requires on going support.

(13) Performance Reviews:

95% success rate in Class A, 98% success rate in Class B, and a 100% success rate in both Basic 10 hour Refresher and Advanced 40 Refresher for 2021, 2022, and 2023.

789 Lamar Institute of Technology

Public Service and Safety Center

(1) Year Non-Formula Support Item First Funded:	2026
Year Non-Formula Support Item Established:	2026
Original Appropriation:	\$10,000,000

(2) Mission:

The Center will house LIT’s existing Regional Police Academy, Regional Fire Academy, and Emergency Medical Services programs. The proposed Center will be strategically located in Southeast Texas and accessible to emergency personnel from surrounding counties and cities. LIT is the only TSUS institution in Southeast Texas that offers regional police and fire academy programs. The college currently provides viable, high-quality training, education, and workforce development opportunities for local and regional first responders. Programs such as fire, police and emergency medical services play a critical role in ensuring the safety, security, and well-being of communities across the country.

(3) (a) Major Accomplishments to Date:

LIT takes pride in empowering individuals with the knowledge, skills, and confidence to effectively respond to emergencies and protect lives. These programs are long-lasting and have been in existence for decades; Police Academy 1968, Fire Academy 1972, and EMS 1998. In reference to the aforementioned programs, LIT collectively graduated 254 students (FY 2020-2023). These students were prepared to immediately entered the workforce as a first responder upon their award completion. Additionally, these programs maintain over an 85% job placement rate (FY2019-2022).

(3) (b) Major Accomplishments Expected During the Next 2 Years:

Establishing a Public Service and Safety Center in Southeast Texas (SETX) presents a myriad of local, regional and state benefits including:

- Innovation: Creating the first Public Service and Safety Center in Southeast Texas. Providing innovative and advanced skillset, knowledge, and coordination among first responders through specialized training programs and simulations.
- Education and Training: Creating a centralized facility equipped with cutting-edge training resources tailored to the needs of different emergency response agencies.
- Workforce: Possible increase of credit and non-credit enrollment for programs by increasing the number of available cohort offerings that may subsequently generate additional workforce to impact the challenged staffing shortages of Police, Fire and EMS agencies.
- Community: Bolster community collaborations and partnerships with local emergency response agencies, government entities, and community organizations.

(4) Funding Source Prior to Receiving Non-Formula Support Funding:

None

789 Lamar Institute of Technology

(5) Formula Funding:

N/A

(6) Category:

Instructional Support

(7) Transitional Funding:

N

(8) Non-General Revenue Sources of Funding:

None

(9) Impact of Not Funding:

Without this funding, LIT will face financial challenges and may be unable to adequately address the increasing shortage and training needs of first responder professionals.

(10) Non-Formula Support Needed on Permanent Basis/Discontinuation:

N/A

(11) Non-Formula Support Associated with Time Frame:

N/A

(12) Benchmarks:

N/A

(13) Performance Reviews:

The Fire, Police and EMS programs will continue to train and prepare students to enter the workforce while the Center expands continuing education and training needs of first responder professionals locally and statewide.

789 Lamar Institute of Technology

Technical Program Support

(1) Year Non-Formula Support Item First Funded:	2026
Year Non-Formula Support Item Established:	2026
Original Appropriation:	\$750,000

(2) Mission:

LIT is committed to delivering education and training that equips graduates with practical knowledge and technical skills essential for success across various industries. LIT plans to launch the following technician programs in Spring 2025:

- Mechatronics,
- Commercial Electrical,
- Electronics,
- Computer Engineering,
- Electromechanical Engineering, and
- Robotics and Automation.

(3) (a) Major Accomplishments to Date:

LIT constructed a 15,000 square foot Advanced Technology Center (ATC) to accommodate the diverse technician programs. ATC features innovative learning spaces, including lecture classrooms, technical labs, multi-purpose industrial training areas, and a high-bay lab designed to simulate real-world industry environments. The design allows for shared faculty, lab spaces, and equipment across programs, maximizing resource utilization.

Key benefits of this approach include:

- **Cost Efficiency:** Consolidating equipment and faculty across multiple programs leads to budget savings.
- **Flexibility and Versatility:** Multi-purpose equipment meets the needs of various programs simultaneously.
- **Interdisciplinary Learning:** Shared resources encourage collaboration among students, reflecting real-world project environments.
- **Enhanced Program Integration:** Equipment that supports multiple programs fosters cross-disciplinary skills development.
- **Adaptability to Technological Advances:** Investing in versatile equipment allows quick adaptation to industry changes.
- **Industry Alignment:** Equipment purchases align with industry standards, ensuring graduates are well-prepared for employment.

789 Lamar Institute of Technology

(3) (b) Major Accomplishments Expected During the Next 2 Years:

Overall, LIT aims to create impactful technology programs that drive innovation and collaboration while ensuring quality instruction and graduate success to meet technician workforce needs in the state and local areas.

- Faculty: Hire qualified faculty and provide ongoing professional development.
- Curriculum: Develop a comprehensive curriculum with hands-on learning and real-world applications.
- Certifications: Integrate industry-recognized certifications into the programs.
- Resources: Secure essential equipment and resources for instruction.
- Enrollment: Achieve enrollment and completion targets with each program aiming to graduate at least 10-12 students by Summer 2027. This will yield a total of 60-72 qualified technicians ready to meet the workforce demands effectively.
- Industry Partnerships: Establish partnerships for advisory committees, internships, cooperative learning, and career placement opportunities.
- Improve Unemployment Rates: Contribute to reducing unemployment rates by preparing graduates with in-demand skills and qualifications sought by employers.
- Expand Technical Education: Broaden access to education and training through flexible learning pathways and class offerings.

(4) Funding Source Prior to Receiving Non-Formula Support Funding:

None

(5) Formula Funding:

None

(6) Category:

Instructional Support

(7) Transitional Funding:

N

(8) Non-General Revenue Sources of Funding:

None

(9) Impact of Not Funding:

789 Lamar Institute of Technology

Without this funding, LIT will face financial challenges and may be unable to adequately address the increasing demand for skilled technology technicians in the workforce.

(10) Non-Formula Support Needed on Permanent Basis/Discontinuu

Yes this non-formula support item is needed on a permanent basis.

(11) Non-Formula Support Associated with Time Frame:

N/A – This non-formula support item requires on going support.

Workforce Training and Education Expansion

(1) Year Non-Formula Support Item First Funded: 2014
Year Non-Formula Support Item Established: 2014
Original Appropriation: \$500,000

(2) Mission:

To be able to respond to business and industry workforce training needs for a projected \$11 billion dollars of expansion planned in Southeast Texas. Funds will be used to train unemployed and under skilled workers and incumbent workers that are required by business and industry.

(3) (a) Major Accomplishments to Date:

As a major component of the economic resources used to recruit business and industry to Southeast Texas, new industrial training programs will be established and existing programs updated to meet changing requirements within the industries will be continued.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

Funds will be used to train unemployed and under skilled workers as incumbent workers are required by business and industry.

(4) Funding Source Prior to Receiving Non-Formula Support Funding:

There were no sources of funding prior to receiving the funds.
