TSA Account Maximum Contribution Worksheet

Generally speaking, this worksheet does not need to be completed unless contributions are (a) to exceed the general limitation (\$16,500 in 2009), or (b) the employee's gross salary exceeds \$170,000 (in 2009), or (c) the employee is making contributions to retirement plans with other employers. (If the employee is over age 50 at the end of 2009 and (b) and (c) do not apply, the employee will ordinarily be eligible to contribute up to \$22,000 in 2009. However, some of the excess over \$16,500 will count towards the \$15,000 lifetime 15-year rule catch up additional limitation unless the entire \$15,000 has already been exhausted)

With few exceptions, you have the right to request, receive, review and correct information about yourself collected using this form.

This worksheet may be used to calculate your maximum contribution amount to the Supplemental Tax-Sheltered Annuity (TSA) plan. To enroll in the plan or to change your contribution amount, complete the TSA Initial Enrolment/Change of Vendor/Change of Contribution form.
