CONSISTENT VISUAL IDENTITY

The Lamar Institute of Technology (LIT) brand is one of our most valuable assets and defines who we are and what we do. This manual is a resource guide for all members of the LIT community and the vendors who work with LIT. This guide helps ensure all parts of the Institute are working together to communicate with a unified visual identity. Consistency is the number one factor for developing a successful brand identity. Included are general guidelines for the LIT brand as well as specific directions for the application of related elements.

The Lamar Institute of Technology manual dictates that all printed and electronic material intended for internal/external audiences must be developed and produced under the guidance of the Communications and Marketing Department. This department is charged with the responsibility for the interpretation and control of all institutional graphics. For additional information on LIT's visual standards, please contact (409) 245-8283 or email marketing@lit.edu.
