

Lamar University/Lamar Institute of Technology TSA 15-Year Catch Up Worksheet

This worksheet does not need to be completed unless contributions are to (a) exceed the general limitation (\$16,500 in 2009), or (b) the general limitation plus the age 50 catch up when applicable (total \$22,000 in 2009). Employees should understand that the excess over the general limitation is considered by IRS regulations to be first applied to the 15-year catch up amount, if eligible and not previously fully used, before it can be applied to the over age 50 catch up.

With few exceptions, you have the right to request, receive, review and correct information about yourself collected using this form.

This worksheet may be used to calculate your maximum contribution amount to the Supplemental Tax-Sheltered Annuity (TSA) plan using the 15-year catch up provision. To enroll in the plan or to change your contribution amount, complete the TSA Initial Enrolment/Change of Vendor/Change of Contribution form.
