The class is great and I'm learning a lot, I just wish that it was set up unit by unit, rather than "week 1," "week 2," ect. Also, it is over halfway through the semester, and I have not received a single grade that was not automatically computed. This worries me. That's all.

Professor is awesome, responds quickly when I have had questions/concerns. Course is interesting and I am learning a lot and it helps in what I currently do for a living.

I have completed assignments since the beginning of the semester and none of them have been graded. And because of this I have a failing grade. Its states that worked will be graded within two weeks. And none of my assignments have been graded. This instructor is not good at all!!!! you require that we turn in assignments by a certain date. But do not grade them. What is the point of the students meeting our deadline if our instructor is not going to do the same and keep her word and follow the your own guide line you wrote?!?! I feel as though that this is very unfair to the students!!! to have them wondering if they are going to pass a class because our instructor is to lazy to do the job that they applied for and got hired for. and are getting paid for!!! if I do not pass this class after doing all this work after taking pictures of all of my ungraded work I will be filing a complaint with someone because this is not how my instructors have handled online classes in the past!!!! She needs to do so much better than what she is doing!!!!

Assignments, with exception to online quiz's and exams, are not graded within the designated time frame indicated by the instructor. Better communication should be exercised with respect to graded assignments.

This class was awesome!!

This professor never returns emails in a timely manner. I have had a good amount of questions during the semester that I have emailed about and she takes days to respond. I actually had to pay an accountant to teach me how to turn something back on that I turned off in Quick books because she would not answer my emails, phone calls, or visits to her office. She needs improvement in being there for help for her students if she is going to continue to teach online classes. Also, the book that she is using is COMPLETELY different from the Quick Books website. So, it is almost like not even having a book. I am very disappointed with this class, and very stressed out with all of the problems I have had.

We have less than a month of school less and we haven't received one graded assignment. I have even requested that assignments be graded before I finish the remaining assignments just to make sure that I am working in the right direction and doing everything correctly and I was told grades would be posted by the end of that week and that was 2 or 3 weeks ago and still no grades have been posted.
